The Wonderland, New Mexico
A Land 5,000 Feet High
Haughtiness in Solitude
Glory in Mountains

—By Arthur Brisbane—

Copyright, 1921.

To realize the beauty and grandeur of this earth see New Mexico. Under your eyes, beside the railroad track, are huddled adobe huts of half a dozen Indian families, living as they lived a thousand years ago, scraping from the earth a thin living. Their home is a square box of mud, before it a rounded mud structure like a beaver, but in which bread is baked.

Beyond are magnificent table lands, five thousand feet above the sea, now given over to feeble grass, sage brush, goats and sheep. On those broad lands will live, one day, a nobler race than any this earth has known. "It hath not been shown what we shall be." At intervals on all sides rise majestic dark blue mountains, each ruler in its domain, so magnificently beautiful, as it rises toward the brilliant blue sky and light traveling clouds that your heart feels pain in looking at it. You wonder that man's conceit can persuade him that he is important in the mind that rules this planet and a billion others.

Wide stretches of these lands are called desert lands. They are lands of infinitely varying form, color and beauty, magnificent deserts, deserts one day to blossom. Here you see a big Indian village. Two buildings are bigger than the others—one, the Indian school, that comes from Washington; the other, the church, that comes from Rome, the power that reaches out here before any other.

There are patches of color on every washed hillside, and patches of color on every Indian. Man follows nature, imagining that he leads.

These Indians are poor, and ignorance, worst of all poverties, curses them. Their village is by the edge of the muddy stream, so often dry. They can live there safely now. Beyond their houses of mud, they see the old train that leads up to the cliff where once they dwelt, watching for marauders that ate any meat, human meat preferred. Some wrinkled old Indian may know vaguely of that ancient life. The young Indian knows of it as little as the London taxi driver knows of days when his ancestors lived hiding in swamps, afraid of strange men from the North that came killing in their Viking ships.

But ignorant as they are, and poor as they are, when you see the Indian face close by, eyes that look over you, not at you, you remember Plato's line, "Haughtiness lives under the same roof with solitude." Even crouching at the railroad stations, selling "Indian wares," that may be made in Birmingham, those Indians have not entirely lost the dignity born of ten thousand years in this glorious land. And dignity that can resist the humiliating effects of retail commerce, and contact with unspeakably ignorant, traveling, superior whites, is deeply planted, indeed.

On these lands, half-barren or all barren now, the soil lies over vast stretches, twenty feet deep and more. No one knows what wealth of food this land will one day produce, or what other wealth lies hidden in those mountains. Here is a wonderland, a magic land that for centuries will educate and inspire those that come to see it and stay long enough to learn what it can teach. In this wide country the air is so clear and pure you feel that you could reach up and touch the sky. And of all the wealth undeveloped that it offers, the greatest is the educating work that it could do for the dull imaginations of one hundred millions of Americans. If it were possible to bring here the millions that live in cities, the lives of caged canaries, giving to each three months of contemplation and real thought in these wide spaces, the human average of this country might be pushed ahead several centuries.

But perhaps three months would not be enough for some of us. Studying your fellow travelers in this slice of civilization on wheels you perceive that some still have eyes and see not. One assures you with deep earnestness that at the next stop they take on fresh trout for the dining car. Another, having bought and exhausted various fiction periodicals, remarks: "I'll say, I don't blame these Indians for killing everybody if they had to live out here all the time. Wouldn't you think the government would at least give the poor things a moving picture show?"

For the greatest moving picture on earth, with God the producer and exhibitor, come to this country.

These Indians, as it happens, do not kill or want to kill anyone. They are peaceful Indians, and have been for ages. To look at this sky, these mountains and think of killing would seem impossible.

It might be well to hold dis-

Shaw Case Girl Collapses

SPIRIT AND HEALTH BROKEN

"Butterfly" Tenderly Watched by Mother, Who Regrets Girl Met Banker

Broken in spirit and health, beautiful Madrienne La Barre, famous "Follies Butterfly" dancer, has completely collapsed.

The nervous strain caused by the publicity and scandal that have resulted from the linking of her name with that of Philip M. Shaw, millionare banker, whose wife has brought action for divorce and has named the "Butterfly" as corespondent, have been too much for the frail girl.

Now she has collapsed completely and is tossing restlessly on her bed, watched over constantly by her faithful mother, who today denied a report that her daughter had attempted to send her life.

"There is absolutely no truth in the assertion," she said. "The child has completely collapsed. The strain has been too great."

"It is an absolute falsehood. She did not attempt suicide. Absolutely no."

The "Butterfly" is too ill to talk on the case. Wan and with lines of care showing on her childlike features, she simply tosses about and bemoans the fact that she ever met the banker.

STRAIN TELLS ON MOTHER.

Mrs. Dever, the mother, who is beginning to show the effects of the strain herself, said that the nervous breakdown of Madrienne has been gradually coming on since she made the startling discovery that Shaw was a married man.

"The blow was a hard one for the dear girl to stand," said Mrs. Dever. "But she is brave and honest and true and will pull through all right with care. She will not let this catastrophe down her for good.

"Madrienne will make a fresh start when this is all over and the awful scandal that she has had to undergo has passed. She is accomplished, educated and is too brave to give up now. But it has been a hard blow—for both of us."

Mrs. Dever and Madrienne were in Boston at a photograph studio when the collapse came.

"I think that the heat added to the nervous strain is what caused it," said Mrs. Dever.

Any statement to the effect that the girl had attempted suicide Mrs. Dever absolutely denied and classed as ridiculous and absurd. She also denied that either she or Madrienne had been interviewed by anyone, either before or after the collapse.

"My heart is broken when I look at my darling little girl lying there suffering. Suffering because of the act of that man who deceived her," said the mother.

CHILD HER TREASURE.

"She has been my great treasure all these years. I have watched over her, cared for her, educated her and have watched her as she blossomed out into a beautiful young woman. Now—scandal, publicity, a broken heart—oh, it is almost too much to bear.

"Why, oh, why did that man come into her life to bring her this suffering?"

And Madrienne—wan and thin and heartbroken—smiles up at her mother in her illness and says: "Be brave, mother dear. It will be all right some day."

Shaw has retracted the statement that Mrs. Shaw was not legally his wife.

In the New York Supreme Court Shaw withdrew the statement that his wife's decree of divorce from William Jordan of this city had not been made final.

The retraction was followed by a bitter attack made on Shaw by his wife's counsel, in which the banker was scored for his friendship with Miss LaBarre.

Benjamin F. Spellman, the lawyer, declared that Shaw had spent "on this sick young lady" money at the rate of $10,000 a year, while he allowed his wife to be dispossessed from her home, and to be compelled to sell household articles and gifts made her by himself previously.

Twins Are Answer to Ultimatum of Landlady

City Housing Commissioner Herbert E. Ellis was confronted with a new problem today.

A little over a year ago a young married couple occupying half of a two-family dwelling in Roxbury were blessed with a baby boy. Their landlady then notified them that if another addition to the family came, they would have to move.

Ellis was called to the telephone today by the young husband.

"What'll I say to the landlady now?" came over the wire in worried tones. "We've just had twins!"

"The landlady is probably so overcome with the shock she won't do anything," replied Ellis.

TOTAL OF $250,000,000 COLLECTED BY MITCHELL

Collector of Internal Revenue John J. Mitchell, who took charge of the revenue office on April 6, 1920, has collected since he has been in office $214,056,100.10 in income and profits taxes, the collections being for the fiscal year June 30, 1921. The total miscellaneous taxes collected by Collector Mitchell for this fiscal year amounted to $44,840,261.28, making the grand total of collections $258,896,361.38.

Collector Mitchell will be succeeded by Malcolm E. Nichols Monday morning.

CHELSEA BABY BURNED AS BED CATCHES FIRE

Edith Paisner, seven-months-old daughter of Mrs. Bertha Paisner of No. 160 Cherry street, Chelsea, was seriously burned today when the bed on which she was sleeping caught fire during the temporary absence of her mother. A neighbor rushed into the home and found the baby lying on the blazing mattress. She ran with the child to a nearby garage and covered the baby's burns with machine oil. The baby was taken to the Chelsea Memorial Hospital.

THOUSANDS, AFFLICTED, AT SHRINE OF ST. ANNE

Montreal, July 28.—Pathetic scenes were witnessed today when thousands of afflicted persons gathered at the shrine for the annual feast of St. Anne. They came from all over the dominion and the United States to seek Divine cure for their ailments. Thousands of Americans were included in those who made pilgrimages to the shrine. Many noted priests attended.

TURKISH NATIONALISTS COMMENCE RETREAT

London, July 28.—The Turkish Nationalists have begun to evacuate the peninsula on the southern shore of the Sea of Marmora, said an Exchange Telegraph dispatch from Constantinople today. This removes the last menace of a Turkish Nationalist attack against Constantinople. The Nationalists are retiring into the interior of Anatolia, while the Greek advance continues toward Angora.

WOMAN DROWNS TRYING TO RESCUE BROTHER

New London, Ct., July 28.—Leaping into the water to save her small brother from drowning, Mrs. Blanche Katz, thirty-five years old, was attacked with cramps when a short distance from shore and drowned. Passing automobilists heard the boy's cry and rescued him, but were unable to save Mrs. Katz. The drowned woman, a boarder at a Summer camp here, lived in New York.

LAWRENCE BABY FALLS ON PICKET FENCE; DIES

Lawrence, July 28.—Zolardi Duboski, fifteen-months-old son of Mr. and Mrs. Stefani Duboski, fell from the second-story piazza of their home at No. 56 Concord street to a picket fence eighteen feet below, on which he was impaled until released by his frantic mother. He died less than an hour later while being operated upon at the Lawrence General Hospital.

SINN FEIN DECISION REPORTED

"Happy Result of Dublin Deliberations," London Hears

By International News Service.

London, July 28.—The Dublin correspondent of the Central News issued a report this afternoon, saying:

"The critical stage of the Irish peace negotiations has been passed and it is understood that the Sinn Fein Cabinet has reached a happy decision."

It is definitely learned that Premier Lloyd George has the support of the leading English Unionists, and they are expected to bring pressure upon the Ulster Unionists if Sinn Fein sends a satisfactory answer.

A report that Eamon de Valera has sent a preliminary communication to Premier Lloyd George is denied in authoritative quarters, said the Daily News today.

It is understood that 36 members of Dail Eireann (Sinn Fein Parliament) will be released shortly to take part in the peace discussions at Dublin.

CHELSEA BOY FIRES BED, BABY SISTER MAY DIE

Seven-months-old Edith Paisner, daughter of Mrs. Bertha Paisner of No. 160 Cherry street, Chelsea, was possibly fatally burned today when her two-and-a-half-year-old brother Edward set fire to the bed on which she was lying. The child was rescued by a neighbor, Mrs. Gordon, who hurried with her to a nearby garage and covered her burns with machine oil. The baby was then taken to Chelsea Memorial Hospital. In the meantime the blazing mattress was extinguished by Mrs. Jennie Davidson, nineteen years old, who lives upstairs.

According to Officer Bradley of the Chelsea police, little Edward Paisner secured matches while his mother was at the store buying more.

MAYOR GOES ON MOTOR TRIP TO WILLIAMSTOWN

Mayor Peters left Boston this afternoon for an automobile trip over the Mohawk trail to Williamstown, where he will participate in the opening of the Institute of Politics. Chief Justice Taft of the United States Supreme Court will be the principal speaker and others who will deliver addresses are Vice-President Coolidge and Governor Cox. The Mayor will return to City Hall next Tuesday. On Monday he will greet President Harding, and with Governor Cox will deliver short addresses of welcome to him.

CONNECTICUT SUFFERS FROM THUNDERSTORM

Hartford, Ct., July 28.—A terrific thunderstorm did considerable damage to crops and buildings in several sections of the State today. At Packerville, lightning struck the Church of Freedom, which, followed by fire, entailed a loss of $10,000. All over the State crops were flattened by the heavy rain. In western Connecticut hailstones as large as marbles covered the ground.

MARY JUIPSHUR, 16 years old, of No. 27 Baxter street, South Boston, overcome at Washington street and Broadway; City Hospital.

A break in the heat wave is at last predicted by the official weather forecaster here.

The prediction calls for probable thunder showers this afternoon, with cooler weather tonight and tomorrow. A wave of lower temperature and rain is moving down from Canada, and has already visited the northern section of New England.

The official prediction is as follows:

Probable thunder showers this afternoon, followed by fair tonight and Friday. Somewhat cooler, with fresh west to northwest winds."

If the showers fail to arrive, however, today bids fair to eclipse the hottest July 28 on record, in 1894, when a mark of 97 degrees was reached. The mercury had jumped to 89 degrees at 11 o'clock and was still rising.

Brookline Child Saved by Water-Cooled Breeze

Gasping and fighting for every breath in the intense heat, the life of a seven-months-old Brookline infant was saved by an emergency trip in a motor boat to the Boston Floating Hospital, anchored in the lower harbor.

As the boat rushed along through the water-cooled breeze, the suffering of the child was lessened, and it fell asleep for the first time in two days some time before the Floating Hospital was reached.

Dr. Karl G. Percy, the attending physician, realizing that the child could not live in the suffocating heat of its parents' apartment, telephoned to G. Loring Briggs, head of the hospital, to see if something could not be done. At Mr. Briggs' suggestion Dr. Percy motored with the baby to the waterfront, where a launch was waiting. When the hospital was reached the child was awakened long enough to be given a little nourishment through a tube and then allowed to sleep again.

U.S. Must Not Disarm Before Other Nations, Warns Roosevelt

By International News Service.

Washington, July 28.—The United States must never disarm and then wait for other armed nations to act, even though "pacifists and muddleheaded idiots may shout for the United States to set an example to the rest of the world by disarming," Assistant Secretary of the Navy Roosevelt declared in a brief speech before the Rotary Club here.

"We are facing one of the most important conferences the world has ever known," the secretary said. "The limitation of armament will be the one thought uppermost at the coming conference, but I want to say to you that we must never as Americans under any circumstances put our country in a position where she is not able to defend herself against anything and everything that may arise."

'STRETCHED' ICE CREAM LATEST SCHEME

By New Whipping Process, Public Pays for "Frozen Air," Says Hultman

"Stretched" ice cream is the latest. Have you tried it?

It is being sold in Greater Boston by many ice cream manufacturers, according to Eugene C. Hultman, chairman of the State Commission on Necessaries of Life.

In other words, "frozen air" is being sold to Bostonians in place of ice cream. This "stretched" ice cream is made possible by a new whipping process.

Mr. Hultman says that while these manufacturers are complying with the letter of the law, which states that ice cream shall contain 7 per cent. butter fat, according to weight, they are violating its purpose and spirit. He is considering what can be done toward correcting the matter.

By means of this process nineteen gallons of "ice cream" are obtained from ten gallons of cream preparations. Formerly only fourteen to fifteen galons of "ice cream" was secured from ten gallons. Because of this new whipping process the ten gallons are "stretched" to nineteen, and the dealer is able to get much more money for the finished product. This means that the public pays the extra amount. It buys "frozen expanded air," instead of nourishing cream.

"While the price of milk has gone up," said Mr. Hultman, "the price of making a gallon of ice cream has remained practically the same as in pre-war days, because of this new whipping process. In this manner some of the ice cream manufacturers have been able to maintain their increased profit of about 33 1-3 per cent."

"RED" GARRISONS IN RUSSIAN CITIES REVOLT

Paris, July 28.—The Red garrisons at Minsk, Mozyr and Kalinkovo have mutinied, demanding immediate demobilization, said a dispatch from Reval today. Officers who tried to negotiate with the mutineers were shot. The mutinous soldiers left the cantonments declaring they were going home. Other Russian troops, which were ordered to the scene to restore order, were said to have refused to obey their officers.

TOOK MOST OF THE CASH FROM BUREAU DRAWER SAYS DEFENDANT

District Attorney Nathan A. Tufts of Middlesex, testifying in his own defence at his trial before the Supreme Court on charges of malfeasance today, accounted for deposits of thousands of dollars he made in savings banks in 1917 by saying he got most of the money "from his father's bureau drawer."

The elder Tufts was ill, he said, and wishing him to have the money, directed him to go to the drawer and take it.

In all, his father gave him about $28,000 in cash and various securities, Tufts said.

He gave this testimony under the badgering cross-examination of Special Assistant Attorney-General Hurlburt.

The purport of this line of testimony was plain, as it was in 1917, according to Attorney-General Allen, that the $100,000 Mishawum Manor extortion plot was carried out.

Judge Frederick W. Fosdick of the Superior Court corroborated Tufts in this regard, saying Tufts told him of payments made by his father in 1917.

Tufts was asked concerning deposits in the Waltham National Bank and the Exchange Trust Company in the Summer of 1917. Records were introduced to show $5,061.66 deposited on June 7 of that year, $4,209.78 on June 15, and $5,000 on May 28.

FATHER WAS ILL.

These deposits, Tufts testified, were almost entirely taken from the cash his father had given him or the securities he had converted into cash.

His father gave him $9,100 on June 12, 1917, Tufts said. This was part of the money he "got from the bureau drawer." His father was ill. He told of other gifts of $5,000 and $6,030 made to him by his father early in 1917.

Hurlburt took a great deal of time with Tufts' financial affairs.

He made no direct reference, during this line of questioning, to the Mishawum Manor extortion plot. But he neglected nothing in his probing of Tufts' financial status, even asking him if he had purchased his Winchester house. To which Tufts replied that he had not; that his father-in-law bought it.

Hurlburt swung the defendant from his financial affairs to the Mishawum Manor matter and the motives which kept Tufts from prosecuting.

TOLD BY COAKLEY.

Tufts testified that the first he knew of a big sum having been paid to Boston attorneys was last year, when Daniel H. Coakley told him of a Bar Association investigation.

MINISTER AND ANTAGONIST ACQUITTED

Rev. Mr. Carroll Freed on Larceny Charge, Roland on Assault Complaint

Greenfield, July 28.—The legal troubles of Rev. Walter C. Carroll, retired Leyden clergyman, ended for the present in the district court today when Fred P. Roland was acquitted on a charge of assault brought by the minister.

Following the acquittal of Roland the court dismissed the complaint against the minister charging him with larceny of a quantity of hay.

Both Rev. and Mrs. Carroll appeared in court and testified that Roland had raised his pitchfork to his shoulder in defiance when the minister walked toward him during an argument. The court ruled that the evidence fell short of proving assault.

The minister, who went to jail some time ago when he refused to pay a fine for not sending his children to school, was disappointed and stated he would confer with the district attorney.

Most For Your Money in a Used Car

The full meaning of this headline is that the used motor cars offered through our "Automobile Exchange" columns are among the best values always.

And this is so because owners who desire to sell their cars realize that through this channel they can reach the most logical purchasers.

The most logical purchasers, in this instance, are men of family who perhaps are planning the purchase of an automobile for the first time. They sensibly consider a used car to begin with.

This doesn't mean, however, that used cars are in any sense valuable for their utility alone. Fresh paint and a thorough overhauling of the power plant is the usual process undergone before they are offered for sale.

If you contemplate taking this short cut into automobiling it will profit you to read the automobile ads carefully and continuously in

TUFTS TELLS OF RECEIVING THOUSANDS IN CASH GIFTS FROM FATHER

HURLBURT QUIZZES ACCUSED ABOUT HIS FINANCES

Continued From Page One.

him and to get me, too," went on the Middlesex district attorney.

Tufts was as confident in cross-examination as he had been in direct that he was blameless in the Mishawum affair.

He again denied that he had ever threatened anybody in connection with the "Nero Circus."

He was equally confident that he would have pressed the matter if Theresa M. Sears and Bessie McDonald, two girls at the historic revel, had not weakened in their stories.

Tufts was asked regarding the filing of the case against Brownie Kennedy, proprietor of the manor, charged with keeping a disorderly house.

"You filed that case without going to court, didn't you," said Hurlburt.

"Of course not," said Tufts.

$5,000 FROM FATHER

Tufts resumed the stand for cross-examination shortly after court opened. He was questioned as to his financial affairs by Hurlburt.

Q.—Did you receive money from your father in 1917? A.—Yes; I received $5,000 from him in June of that year.

Q.—Was it in cash? A.—Yes.

Q.—Where did he give it to you? A.—At his home in Fitchburg. He was ill at the time.

Q.—Who saw him give it to you? A.—I don't think anybody did. My mother was in another room.

Q.—Where did the money come from? A.—From his bureau.

Q.—Was it in bills? A.—Yes, bills, in an envelope.

Q.—Was there any notation on that envelope? A.—No.

Q.—Did he give you any other property? A.—Yes. He gave me seventy-five shares of telephone stock.

$9,100 IN JUNE, 1917.

Q.—When did you get the telephone stock from your father? A.—In 1911, but it was not transferred to my name until 1915.

Q.—What did you do with it? A.—I sold it through the firm of Jackson & Curtis.

Q.—Was there any other payment of money made to you by your father? A.—Yes, on June 12 or 13, 1917, just before my little girl's birthday, he gave me $9,100 in bills.

Q.—Did he tell you where to go to get that? A.—Yes. He told me to go to the bureau drawer. He was disposing of his property.

Q.—What did you do with that money? A.—I deposited part of it in the Waltham Savings Bank and the balance in the Exchange Trust Company.

Q.—How much did you deposit with the Exchange Trust Company? A.—$5,000.

Q.—What other property did he give you that year? A.—In July, 1917, he gave me ten shares of telephone stock.

Q.—Anything else? A.—Yes, he gave me $6,030 in cash.

LAST OF FATHER'S CASH.

Q.—Where did he get that? A.—He was in bed and he told me to get it from the bureau drawer. That was the last money my father had.

Q.—When did you receive that? A.—Just before the last day in July, 1917.

Q.—Did he have any other children? A.—No.

Q.—His wife was living? A.—Not at that time.

Q.—What did you do with the ten shares of telephone stock? A.—Sold them, through the firm of Jackson & Curtis.

Q.—Did they sell other stock that your father had given you? A.—Yes.

Q.—Are you connected with the Exchange Trust Company? A.—Yes, I am a director.

Attorney-General Allen gave Hurlburt two slips of paper. They were offered in evidence.

The first slip showed the record of a deposit in the Exchange Trust Company on June 16, 1917, of $5,025.

Q.—Was this the money your father gave you? A.—Yes.

The other record was on the deposit in the Exchange Trust Company on June 28, 1917, of $6,030, and two checks aggregating $425.

Q.—Did you say anything about cash yesterday when telling of what your father gave you? A.—I think I did if asked the question.

NO MISHAWUM PAPERS.

Attorney Hurlburt asked Tufts if he had looked up his records to see if he had kept the file in the Mishawum Manor case. Tufts said he had told his secretary to make a search.

Q.—What did you find? A.—I found a folder on the Lillian Kingston case. But there was nothing in it.

Q.—Did you find any file on the Mishawum Manor case? A.—I did not.

The first witness today, before Tufts took the stand, was Miss Alice B. Dillaby, probation officer from the Roxbury Court. Attorney Fletcher Ranney said he wished to have her contradict the Theresa M. Sears testimony that she, Sears, had never served time.

Miss Dillaby said that Theresa M. Sears was in the House of the Good Shepard from January until June of 1915. (The Sears woman was one of two whose complaints led to the exposure of the Mishawum Manor revel of March 6, 1917, and her testimony in the lower court at that time is being used as evidence against Tufts.)

Tufts took the stand after her and was asked concerning financial matters.

DEMANDS BOOKS.

Hurlburt said: "I will now show you a copy of your account at the Waltham National Bank. On the seventh day of June, 1917, you deposited $5,061.06. Where did that come from? A.—That was made up largely by $5,001 received on June 4 from Jackson & Curtis for the sale of stocks.

Q.—On the 15th of June you deposited $4,290.78. What was that? A.—That was part of the money from my father, the other part of which went to the Exchange Trust.

Q.—I understand your father gave you only three amounts in cash? A.—Yes.

Q.—I'll call your attention to a deposit of $5,000 on May 23, 1917. What was that? A.—That was the first amount my father gave me in cash.

"I want your cash books, your check books and your deposit books during 1917" said Hurlburt.

Tufts.—"With reference to the cash book I have one showing the receipts from my law business but not the disbursements."

Hurlburt—"Will you bring those?"

"Yes."

Q.—Did your father have a bank account? A.—I think so.

WAS INVESTIGATING.

Q.—Did you purchase your Winchester house? A.—No. My father-in-law purchased it. That was on October 1, 1919.

Q.—If I understand correctly, you told Mr. Wright you intended to indict his clients for procuring for immoral purposes. (In the Mishawum Manor case.) A.—I did not say that. He asked me what they could be indicted for and I told him that was what I was investigating.

Q.—Did you think that the girls at Mishawum Manor led a chaste life? A.—I suppose not.

Q.—Do you know the statute about procuring women? A.—Yes.

Hurlburt here read from the Revised Laws, placing the sentence for procuring as three years in jail or $1,000 fine, or both.

Q.—Did you think you had evidence of procuring when you talked with Mr. Wright? (Charles H. Wright, District Attorney in Hampden County, former member of the Governor's Council and attorney in the Mishawum Manor case in its early stages. He has testified for Tufts). A.—Won't you read the other statute that has to do with procuring?

Hurlburt then read the statute for aiding or abetting in procuring, making the penalty a fine of $100 to $500 or imprisonment for from three months to two years or both.

HARMONY

NATHAN A. TUFTS

Accused Middlesex County district attorney, as he impresses Artist Harmony on the critical days of the long-drawn out court proceedings.

THOUGHT DIFFERENTLY.

Q.—Did you really think when you talked with Wright that you had sufficient evidence for indictment? A.—He thought so. He so told me. As a result of what he said I thought so too. When I talked with the girls I thought differently.

Q.—You knew that these defendants were afraid of publicity? A.—They didn't tell me so. I may have inferred it.

Q.—You knew that an indictment against these men would be injurious to their business? A.—Yes.

Q.—You knew that from Coakley when you saw him on Saturday, the 12th? A.—He said so.

Q.—At some time did you learn of a conference of attorneys in New London? A.—Only a long time afterward.

Q.—Did Coakley inform you that he had fixed it up with the lawyers? A.—I do not recollect.

Q.—You knew shortly after that these complaints had been settled? A.—Only by rumor. (This testimony referred to the alleged threats of the Mishawum husbands to bring suit, where "complaints" were mentioned.) It is possible Coakley had telephoned me but I don't recall.

Q.—When you talked with Mr. Aylward didn't he tell you the matter had been settled? A.—He did not tell me.

WASN'T INTERESTED.

Q.—Did Attorney Sawyer tell you the claim he was handling was settled? A.—I don't recall. I wasn't interested in the civil proceedings.

Q.—Did you ever inquire of Attorney Clark? A.—No, I was not interested in civil claims.

Q.—Did you ask Clark if he had any civil claim? A.—I don't recollect asking.

Q.—Clark testified that he told you that the matter had been settled. (A civil claim Clark had as a result of the Mishawum party)? A.—I have told you repeatedly, Mr. Hurlburt, that I have no recollection of such a conversation.

Q.—When did the Brownie Kennedy case come up in the Superior Court? A.—On June 23, I believe.

Q.—You sent for witnesses about the time of the trial? A.—Yes.

Q.—Did you send for all witnesses? A.—Yes. It was the usual procedure to notify the officer in charge. This procedure was followed.

Q.—Did you see Theresa Sears once or twice? A.—As I said, I recollect only once.

Q.—Did you send for her through Captain Gordon? A.—I think so.

CALLED COURT'S ATTENTION.

Q.—The charge against Lillian Kingston, also known as Brownie Kennedy, of keeping a house of ill fame, you filed without going to court, did you not? A.—No, of course not.

Q.—Did you call the attention of the court to the gathering of the moving picture men at Mishawum Manor in Woburn? A.—Yes.

Q.—Did you tell the court it was a bad place? A.—I can't recall.

Q.—Did you tell the court that this was a place of ill fame which was widely resorted to? A.—I don't think so.

Q.—Do you ever ask the court to put a case on file without a plea of guilty? A.—That has been done many times.

Q.—In such cases what do you have to hold the defendant? A.—When a case is put on file it is not finally disposed of. It may be restored to the list at any time. They are not filed for the purpose of holding the defendant.

Q.—You don't have any doubt that you could find Lillian Kingston? A.—I had considerable doubt.

COULDN'T REMEMBER.

Q.—Didn't Sergeant Presho tell you he could locate that woman in Brookline? A.—I do not recollect.

Q.—Did he ask for a capias? A.—I have no recollection.

Q.—Will you swear that he did not? A.—I have no recollection.

Q.—At that time you had three officers to investigate cases like this? A.—Yes.

Q.—Did you ask these officers to search for Lillian Dale (alias Kingston)? A.—No.

Q.—Did you ever ask these officers to investigate Lillian Dale, to find out whether she was running a house of ill fame? A.—No.

Q.—You had doubt of being able to get an indictment. Did you tell counsel in the Mishawum Manor case that? A.—I don't remember whether I did or not.

Q.—What investigation did you make outside of seeing the girls (McDonald and Sears)? A.—None, except to direct the chief of police of Woburn to conduct an investigation.

Q.—Is that all the investigation you made? A.—I did just what the chief wanted.

KNEW MONEY WAS PAID.

Q.—Answer yes or no? A.—All I did personally.

Q.—All you directed anybody else to do? A.—All that I recall.

Q.—At some time you learned that much money had been paid by these moving picture men? A.—I did.

Q.—When? A.—In June, 1920.

Q.—Whom did you speak to then? A.—I saw Mr. Coakley.

Q.—What was the occasion of your conversation with Coakley? A.—I had received a notice of an investigation by a committee of the Bar Association into the alleged payment of large sums by the moving picture men. I was indignant. Coakley said, "They are trying to get me, and you, too."

He testified that he was told in the notice from the Bar Association to be ready to appear when they wanted him. He consulted Coakley to find out what it was all about.

Q.—Did Coakley tell you anything about the $100,000 charge which the motion picture men paid? A.—No.

Q.—Did you hear about it? A.—Yes, I heard that a large sum had been paid.

WAS SURPRISED.

Q.—Were you indignant when you heard that $100,000 had been paid? A.—I don't know that I was indignant, but I was surprised.

Q.—Did you inquire of Coakley why they had been charged that amount? A.—No.

Q.—Did you show any interest in it? A.—No personal interest.

Q.—Did you ever ask Coakley how much of that $100,000 he got? A.—No.

Q.—Did you ever ask Attorney Aylward how much he got? A.—No. I left that to the Bar Association.

Q.—You were given intimations later that you had got some of that money, weren't you? A.—Yes.

Q.—Did it make you indignant to hear that? A.—It certainly did.

Q.—Did you talk with anybody about it? A.—I did.

Q.—Name one person you discussed this matter with? A.—Mr. Johnson.

Q.—Mr. Johnson of your counsel? A.—Yes.

Q.—Who else? A.—I talked it over with my assistant.

SAID IT WAS PROPAGANDA.

Q.—What did Coakley say about this to you when you talked to him? A.—He said it was all nothing but propaganda of the Bar Association. He said they were trying to "get me and they are probably trying to get you. It is the same old story." I told him that it was a new story to me.

Q—Did it ever occur to you to investigate the affair? A.—No.

Q.—You had received notice that a committee was investigating it for the Bar Association, didn't you? A.—Yes.

Q.—And you knew that committee was made up of responsible men like Judge Sheldon, James D. Colt and others? A.—I don't know as I knew who made up the committee exactly.

Q—Did it ever occur to you to go to see Judge Sheldon or any other member of the Bar Association committee about it? A.—No.

Q.—Did you ever repudiate or attempt to repudiate to any member of that Bar Association committee the report that you had received some of that money in the Mishawum Manor case? A.—No, but I was prepared to go before the committee when the hearing was called.

STARTED INVESTIGATION.

Q.—Did you ever start any investigation of the Mishawum Manor case before Coakley came here? A.—Yes. I think I had already sent for the two girls.

Q.—Let us see. The girls were in the Woburn court May 9. Chief McDermott of Woburn saw you on May 10 and Coakley and his clients conferred with you on May 11. Now up to that time had you started any investigation of the Mishawum Manor case? A.—I don't recall that I did.

The witness at this point was asked about his former assistant, Frederick W. Fosdick, now a judge in the Superior Court, who later testified for him, and Samuel Hoar.

Attorney Hurlburt devoted much time to Tufts' method of nol-prossing cases. Hurlburt asked Tufts if one of his assistants whom he considered a man of integrity had nol-prossed a case, whether he assumed any responsibility. Tufts replied in substance that he assumed no responsibility for cases nol-prossed by assistants when he had no personal knowledge of the facts in the case or of the nol-prossing.

DONE BY ASSISTANTS.

He stated he felt his assistants were capable of doing this and that was what they were appointed for among other things.

Q.—But did you personally approve such nol-prossing when done by your assistants? A.—Not unless I had personal knowledge.

Tufts cited an instance in the case of Ruth Pember, whose case had been nol-prossed by direction of the court.

Q.—Can you recall any cases nol-prossed by assistants which you either approved or disapproved? A.—I don't recall any special cases.

Q.—Would you make any notation of cases to be nol-prossed? A.—At times, yes, and again I would give instructions verbally.

Q.—You testified that summonses had been issued in the Mishawum Manor case? A.—Yes.

Q.—What became of the return? A.—I don't know.

Q.—There was no Grand Jury action on that case? A.—No.

Q.—Have you in your possession a single summons in that case? A.—No, you produced one here. I understand that the others were given to Attorney Levenson, who tore them up. At any rate he didn't return them. I have none in my possession.

BROWNIE DEFAULTED.

At this point Attorney Ranney served notice on the court that the case of Helen A. Morse, alias Lillian Dale, otherwise known as "Brownie" Kennedy, had been duly defaulted. The court yesterday demanded definite information whether a default was entered in these cases resulting from the raid of Brownie Kennedy's apartment on Massachusetts avenue, near Lafayette square, Cambridge.

Ranney offered records to show that a default had been entered against Helen A. Morse, alias Dale, March 12, 1918, in connection with a charge of keeping a disorderly house and a second complaint charging her with keeping and exposing liquors, which also was defaulted.

Attorney Ranney on redirect: "You testified yesterday concerning a case in which Attorney Hurlburt appeared as counsel in connection with Coakley? A.—Yes.

Q.—What case was that? A.—The Bigelow case.

Q.—What was done with that. A.—It was nol-prossed.

Q.—As a result of Captain Bigelow's war record, marriage and other things? A.—Yes.

QUESTIONED BY COURT.

Q.—Were you ever requested to appear before the Bar Association in connection with the Coakley inquiry? A.—No.

Q.—Prior to that time had you ever learned that a large sum of money had been paid in the Mishawum Manor case as a result of a conference in New London? A.—No.

Chief Justice Rugg then said he wished to ask District Attorney Tufts certain questions.

Q.—Do you remember whether any proceedings were ever brought against the bondsman in the cases against Helen A. Morse, alias Lillian Dale? A.—I did not personally take any action but if I remember rightly I directed Mrs. Brady, who is one of my assistants, to take some action in that and other defaulted cases, and I think she reported that the bonds were no good.

Q.—Did you assume as district attorney the right to deputize any of your assistants to take full responsibility in nollprossing cases? A.—I assumed that as a matter of law the district attorney had that right.

Q.—Was that your general practice? A.—Yes.

Q.—And you had proceeded on that assumption? A.—Yes. I felt that it was the practice of the Commonwealth. I had consulted Judge Sheldon on that matter.

COAKLEY LETTER.

Chief Justice Rugg then asked questions concerning the undated letter sent by Tufts to Coakley which resulted in the agreement by the court that the letter was undoubtedly sent on May 18, 1917, as it appeared in a folder with other papers of that date.

Chief Justice Rugg:

Q.—In the first sentence of that letter you said that you felt that government witnesses had been tampered with. Just what did you mean? A.—After checking up the statements of the Sears and McDonald girls in the Mishawum Manor case and hearing the statement of Chief McDermott, I felt that the girls had been influenced to change their story. Captain Gordon and State Officer Smith had talked it over with me and they told me that someone had apparently been to see the girls and induced them to change their story.

Q.—You had seen the girls once and tried to see them again without avail? A.—Yes, after noting discrepancies in their story.

Q.—Why did you write to Coakley? A.—Because he had been to see me with clients in the case and had asked for further time. He was the only one who had seen me on behalf of clients. I wanted to notify him that I was not going to wait any longer.

Q.—In the last passage of that letter did you intend to convey to Coakley that you were going to present the case to the Grand Jury? A.—Not exactly. In my previous talk with him I mentioned that a special Grand Jury was likely to come in June or the latter part of May.

JOHN DOE PROCESS.

Q.—Then that did not intend to convey that you intended to call a special Grand Jury in this case? A.—No.

Q.—Had you formulated in your mind at the time you wrote the letter, what you might ask the Grand Jury to investigate? A.—No.

Attorney Ranney: Do you recall that these subpoenas were on a John Doe Grand Jury proceeding? A.—Yes.

Q.—Would that show on the record? A.—If the Grand Jury made any return.

Q.—Did you specify any case or just say that a mere investigation might be held? A.—I mentioned that an investigation might be held.

Attorney Hurlburt: You stated to the chief justice that you had directed Mrs. Brady to take action in the Helen A. Morse case against the bonds? A.—I did.

Q.—That case was in 1918? A.—Yes.

Q.—When was Mrs. Brady appoint-

armament conferences here, and, in fact, McConvery and Johnson suggested it yesterday on the front page of their breezily-edited Santa Fe New Mexican. The big line read, "Let's not overlook any bets; Santa Fe is a nice, cool place to hold the disarmament conference."

Not Santa Fe, the city, perhaps, but a camp set up at the foot of one of these great mountains would be the place for that conference. After a few days spent here, where the white clouds come down to the ground, far away in the distance, and the stars at night seem like close friends, it would not seem worth while to go back and set millions to killing each other for what is not worth while.

All that men want is here, enough for tens of millions of them. And all that is needed is the magician water, so easily brought under control, always ready.

If, instead of fighting each other, men would fight drought, and ignorance, if they would send here an army of geologists, mining and irrigation engineers and capital for farmers they would wage a war worth while, a war against nature's mistakes, and man's selfishness.

To live, to know that the spirit is more important than the body, come to this country, New Mexico.

$5,000,000 SLUMP IN LIGGETT STOCKS RESPONSIBLE FOR CRASH

DRUG MAN TELLS OF LOSSES

A $5,000,000 decline in the market prices of stocks held by Louis K. Liggett, president of the United Drug Company, is responsible for the crash that was announced yesterday when he placed his personal fortunes in the hands of three trustees.

This declaration was made by Liggett after the news of his financial fall had stirred business and financial circles in Boston to the depths.

The crash is confined solely to Liggett's own personal fortunes, he said, and in no way affects the stability or financial condition of the United Drug Company, Liggett's International, Liggett's Drug Stores, or any of their subsidiary companies.

In making a statement as to the reasons for the placing of his affairs in the hands of trustees, which, he says, was done solely for the protection of his creditors, Liggett emphatically denied hints that he had been gambling on the stock market.

COULD NOT MEET MARGINS.

Liggett's crash came after an unprecedented drop in the market price of United Drug Company common stock, which fell off over twenty points during the twenty-four hours preceding the appointment of the trustees.

This drop, he declared, required margins on personal loans which he was unable to meet impartially, and forced him to place the administration of his assets in the hands of business associates.

Liggett's assets, he said, consisted largely of securities listed on the stock exchange, and contain a large number of shares of United Drug Company stock. This stock, which he bought at $142 a share, has now dropped to below $80.

Liggett's statement follows:

"Owing to the decline in the market price of United Drug Company common stock in the past forty-eight hours, requiring margins on loans which I could not meet impartially, I felt it necessary to have trustees appointed to administer my assets for the benefit of my creditors.

"This in no way affects the United Drug Company, Liggett's International Liggett's Drug Stores, nor any of their respective subsidiaries. All of these companies are in absolutely sound financial condition. Their combined business is running at the rate of over $100,000,000 per year. Inventories have been materially liquidated and loans have been paid off from the proceeds of the recent bond issue of the United Drug Company.

HAS NOT GAMBLED.

"These companies have taken some losses in sugar, rubber, etc., but a substantial part was wiped out in 1920 and this year's production should entirely liquidate it.

"Let me reiterate that the present situation is purely a personal one, and in no way involves any of these companies. My temporary financial embarrassment comes from the fact that my assets, which consist largely of securities listed on the stock exchange, have declined in market price over $5,000,000 in the past eight months.

"I have bought United Drug Company stock at $142 per share and have continued to buy it down to $80. In other words, I have bought it as long as I could and have not sold a share. Necessarily, as all of my securities have declined in market price, I have had to put up more and more capital to protect my loans.

"I have not lost money through my outside interests except in the decline in the market prices of their securities, which is common in the general decline during this past year. I have not gambled in the stock market.

"The step I have taken relates purely to my personal affairs and will in no way interefere nor affect my administration of the United Drug Company and its subsidiary companies, nor will it have any affect upon the management of the Liggett's Drug Stores nor Liggett's International nor its subsidiaries.

PLANS UNAFFECTED.

"We shall go right ahead with the plans announced and contemplated during the past six months to consolidate all of these companies when the general conditions are propitious. But these plans do not involve any new form of financing."

The crash came after an unprecedented drop in United Drug Company, which fell off to 64, 20¼ below the previous closing mark. This, according to financial experts, was due to expectation that when the directors met for dividend action next month the yearly dividend of $8 would either be passed entirely or cut in two. The stock was placed on an $8 per year basis last Fall, and continued so up to the last declaration, which was paid on July 1.

The company's books show a balance fr the $29,928,900 common stock, equal to $8.75 per share, after an inventory write-down of approximately $700,000. This is according to the annual report published last Fall.

This Spring the company sold a bond issue of $15,000,000, fifteen-year notes carrying 8 per cent. These bonds were sold to provide for the maturity of $7,000,000 worth of notes which were due a little after the bonds were sold, and to pay off bank notes.

RECORD RETAIL SALES.

Financial reports sent out by brokerage houses, following the news of Liggett's financial breakdown, declared that this sale put the company into "comfortable shape." Manufacturing sales during the second quarter of this year advanced to within 6 per cent. of the 1920 mark, while retail sales even exceded that mark.

The trustees named to handle Liggett's personal affairs are Frederic C. Dumaine, Frank W. Remick and Neal Rantoul. The transaction was made through the offices of the law firm of Gaston, Snow, Saltonstall and Hunt.

LIGGETT'S RISE OUTRIVALS FICTION

The rise and fall of Louis K. Liggett, founder and head of the United Drug Company, constitutes one of the most interesting romances in the history of American endeavor.

From a poor boy, entirely dependent on his own resources, Liggett rose through initiative and sheer dominating personality to a commanding pinnacle in the world of finance.

From a practically unknown drug salesman Liggett became the head of the greatest organization of its kind in the world, representing more than $65,000,000 of capital and employing thousands.

Starting in business at the age of fourteen years, with no home that he could really call his own, Liggett is now the owner of a magnificent estate in Newton, one of the show places of the section.

Liggett's rise was rapid, his story containing more thrills than Horatio Alger imagined, but his downfall was even more sudden and startling.

DECLINED $5,000,000.

According to his own statement, Liggett's personal securities have declined more than $5,000,000 in the past eight months, although it is said that this sum was actually lost in sugar.

He has long been recognized as one of the foremost business men of Boston, having been president of the Chamber of Commerce, and the news that he had turned his assets over to trustees was received with concern.

At the same time it was known in Newton that Mr. Liggett has been retrenching for some months past, the biggest cut in his expenses being made recently when he sold forty of his forty-eight show horses, valued at over $1,000,000.

Starting in business as a travelling salesman for the Detroit stores of John Wanamaker, Liggett was in business for himself before he was twenty years old.

Becoming interested in a headache remedy, he came in contact with druggists, and the germ of the idea that later blossomed into the United Drug Company sprouted. Liggett saw the possibilities of manufacturing and merchandising drug store goods on a co-operative plan, and with this plan in mind accepted a position as travelling salesman for the Chester Kent Company in Boston.

SHOW PLACE IN NEWTON.

In 1902 he conceived the United Drug Company, and put it into operation immediately, the first manuacturing plant being located on Greenleaf street, Roxbury.

From that time on Liggett's success was remarkable, and at the present time the business extends throughout the United States, Canada and the United Kingdom.

Seven years ago the Liggetts went to Newton, where he purchased the old Storey estate, near the junction of Beacon and Hammond streets, even then a show place. To this he added the Hubbard place, making an estate of twenty-five acres, on which thousands of dollars were lavished.

The Liggett gardens became the envy of horticulturists, sixteen gardeners being employed to care for them. In the great house were ten maid servants, two butlers and a valet, with six hostlers in the stables to care for the forty-eight horses, and two chauffeurs driving and caring for six big automobiles.

The Liggett stables were soon considered among the best in the country and the two Liggett girls, Janice, who is now twenty years old, and Lorraine, or "Pinkie," as she is known, have won many blue ribbons with them. A son, Lee, now twenty-five years old, was noted for his fondness for racing automobiles.

EXPENSES CUT.

Mrs. Liggett entertained extensively, and the Liggett horses were shown all over the country, but the head of the family devoted most of his time to business. He was but seldom seen in his magnificent gardens, and although the family belong to the Brae-Burn Country Club, Liggett was only an occasional visitor.

He is chairman of the Pilgrim Tercentenary Commission, is identified with a number of banks, a director of many industries, president of the Republican League of Massachusetts, a trustee of the New England Conservatory of Music, and director of

During the first Liberty Loan drive, the League for the Preservation of American Independence, Massachusetts branch.

Mrs. Liggett, in a dashing four-in-hand, drove up to the Chestnut Hill booth outside the South Station and purchased $10,000 worth of bonds.

Recently, however, evidences of a desire to cut down expenses have been observed at the Liggett home. Forty of the beautiful horses were disposed of, leaving only eight for the family's use. Eight gardeners were discharged, together with four hostlers, and it is even rumored that the big estate is for sale.

The Liggett reverses were particularly startling in view of the fact that a little more than a year ago the company broke all existing records in Massachusetts for capitalization when the Liggett's International, Inc., Ltd., was granted a charter showing a capitalization of $50,000,000.

The incorporation was necessitated by the fact that the United Drug Company had acquired the Boots Pure Drug Company, Ltd., of London, which operated a chain of 627 stores.

ARMLESS MAN NOW EATS BY MACHINE

Wonderful Piece of Apparatus Shown in Action Before British Doctors

London, July 25.—A remarkable piece of apparatus which supplies arms to anyone who lacks those members, was demonstrated at the annual conference of the Britiesh Medical Association at Newcastle.

The demonstrator was an armless man, who, incidentally, has lost an eye. He sat at a table, and by levers worked with his feet, he operated a mechanical pair of arms which, it semed, were made of lead piping.

With these arms the armless man fed himself and enjoyed the meal. He used knife, fork, spoon cup and napkin with ease and grace. Then he picked up a cigarette, raised it to his lips and lit it. He cut out a paper pattern with scissors and wrote his name with a pencil.

This new mechanism is regarded as the greatest triumph of ingenuity in the art which is now called Prosthetic.

SCHOOL DANCER IN BARE LEGS ANGERS CLERGYMAN

Burlington, N. J., July 28.—An interpretation of "Dawn" by a youthful girl student of aesthetic dancing, whose dancing costume failed to include any covering for her legs, has stirred Rev. Mr. Frank Lukens, pastor of the Presbyterian church, to protest to the local school board.

The dance was given at the recent high school commencement exercises in a theatre auditorium. Rev. Mr. Lukens protests that the dance was extreme and out of place at a high school gathering.

NORTH ADAMS WOMAN BADLY HURT BY AUTO

North Adams, July 28.—Struck by an automobile while crossing Main street, Mrs. Mary Gelineau, about fifty years old, is in a critical condition at the North Adams Hospital. She was knocked down and dragged for about fifteen feet by a machine which was driven by Mrs. Sadie Joseph of Adams, who was learning to drive under the direction of a licensed chauffeur. Mrs. Gelineau suffered several broken ribs and multiple bruises about the face and body and possible internal injuries.

GAS INQUIRY OPPOSED BY COUNSEL

Pillsbury Letter Read at State House Shows Hope of Premium Capitalization

Hope of pushing the capitalization of premiums through the 1922 Massachusetts Legislature has been abandoned by the gas and electric light companies of this State, to judge by a letter from A. E. Pillsbury read today at a hearing before the Public Utilities Commission on a resolve providing for an inquiry into the capitalization of these concerns.

Mr. Pillsbury is counsel for the Association of Massachusetts Gas Companies. Ta judge from the tone of his letter he has not forgotten what happened to the capitalization of premiums bill in the last legislature which the Boston American assisted in defeating.

ABSENT FROM STATE.

Mr. Pillsbury's letter follows.—

"Hon. Henry C. Attwill,
"Chairman, Commission Department of Public Utilities:

"My dear Sir—I have notice of the hearing appointed for Thursday, July 28, upon the resolve for inquiry into capitalization. When this subject is taken up for discussion the Association of Massachusett Gas Companies will expect, if deired, to make such contribution as it can, but I shall be absent from the State on Thursday.

"Meantime I may be permitted to suggest that the only difficulty with the capitalization situation is that our Legislature appears unwilling to bring it into line with the law of the land which has already capitalized the assets of the public service corporations at the fair value of the property employed in the business. The present House of Representatives appears unwilling even to capitalize cash premiums, which is but a short step toward what ought to be done, and we have the same Legislature in office in 1922.

"UNNECESSARY DELAY."

"Under these circumstances, may it not be well for the Commission to consider whether it is worth while to undertake serious inquiry into this important subject with a view to final report upon it to the next session of the Legislature, in view of the atmosphere created there by the recent controversy over the capital prmium bill? There has already been great and unnecessary delay in reaching this subject, but this is through no fault of the Commission, and the experience of the last session indicates that delay may be less undesirable than fruitless controversy. The terms of the resolve do not appear to require the Commission to reprot finally to the next session."

"Very truly yours,
(Signed) "A. E. PILLSBURY,
"for the Association of Massachusetts Gas Co's."

After reading the letter, Chairman Attwill said: "Mr. Pillsbury raises a question as to fair value that I would like to hear discussed. I have never been able to concur with him in his views on this subject."

Others spoke briefly, principally about postponing the hearing to September. It was agreed to conduct the first hearing September 13 and another a week later if necessary.

WOMAN TRAINS CHOIR IN LOWELL CHURCH

A new opportunity for women has opened itself in church work. Miss Ruth Olive Halford, for the past year, has been minister of music at the Central Methodist Church, Lowell.

When she arrived in the Spindle City, there was no choir in this church. She has organized a vested choir of twenty-six voices. In addition, she has a young people's treble choir. She maintains a singing church is a winning church. She is the first woman in New England to prove that choirs can be born again by the training of a woman.

SAYS POLICEMAN MADE THREAT TO KILL WIFE

Lawrence, July 28.—Decision was reserved by Judge Harry R. Dow in Probate Court here, in the case of Mrs. Mary Young, of this city, who seeks separate support from her policeman husband, Edward F. Young, on grounds of cruel and abusive treatment.

Counsel laid stress upon the testimony of the petitioner, in which she said hrr husband had thratened to shoot her. He characterized Mr. Young as a man given to frolicking with various sporting men and staying out late nights.

CITY HALL CLERKS AGAIN GIVEN RESPITE

By repeating his order of yesterday, Mayor Peters today again gave many City Hall clerks respite from toil at 3 o'clock. He notified the department heads that every clerk, chose services could possibly be spared be allowed to go for a swim or other form of rest from the fatigue induced by the heat.

ARREST MAN FOR POLL TAX TOTALING $18.75

Samuel W. Victorson of Walnut avenue was arrested by Constable Martin Welch today, for non-payment of his 1920 poll tax, and lodged in the Charles Street Jail. The original amount of the bill was five dollars, but, with the costs for notices, warrants and constable service, it now amounts to $18.75.

Asks Divorce, Naming "Mrs. Golf" as Co-respondent

By International News Service.

New York, July 28.—The "golf widow" has long been famed in cartoon and story, but it remained for Mrs. Sterling P. Hayward today to actually give "her" an official and legal status.

Mrs. Hayward started action for divorce against her husband, Sterling P. Hayward, vice-president and manager of the Connelly Iron Sponge and Governor Company, naming "Mrs. Golf" as co-respondent.

Her husband's addiction to golf has been so pronounced during the last few years, she charged, that he has virtually excluded her from his life. Golf, she averred, has become a "mania" with him.

Last April, her complaint sets forth, Hayward went to England to see the international tournament, leaving her but $15 a week on which to live. Frequent trips to Atlantic City in the Summer and Pinehurst in the Winter for golf also are cited.

NAVY YARD MAY BID FOR WORK ON BIG LINER

Boston Yard Will Have Opportunity If Leviathan Is Reconditioned

"You may rest assured that the Boston Navy Yard will be given an opportunity to estimate on the work if it is decided to recondition this vessel," wrote Chairman A. D. Lasker in a letter received by Governor Cox today replying to his telegram of July 23 relative to the SS. Leviathan.

The letter follows:—

"My dear Governor:

Your esteemed telegram of the 23d instant, urging that the award for reconditioning the SS. Leviathan be given to the Boston Navy Yard, has been received.

The Shipping Board has not yet decided the question as to whether or not this vessel will be reconditioned. If and when it is decided to recondition the ship, bids and estimates will be invited from all ship repair firms and navy yards on the Atlantic coast which are qualified and have the facilities for properly doing the work connected with the reconditioning hthereof. We will wan, of course, to have the vessel reconditioned at the lowest price possible and will adopt this means of obtaining the most favorable proposal.

You may rest assured that the Boston Navy Yard will be given an opportunity to estimate on the kork if it is decided to recondition this vessel.

Very truly yours,
A. D. LASKER, Chairman.

ARMED ROXBURY BOYS PLACED ON PROBATION

Two youths arrested last night after they had been noticed skulking about an alley were placed on probation today when arraigned before Judge Palmer in Roxbury Juvenile Court. One lad, Fred Hollinside, sixteen years old, of Hubert street, had a dirk in his pocket, while the other, Edward Moxley, seventeen, of Newbern street, had a loaded revolver.

GOV. SMALL IS LOCATED IN CHICAGO

Accused Illinois Executive in Conference With Lawyers and Politicians

Chicago, July 28.—Governor Len Small, under indictment on a charge of misappropriation of State interest funds, whose whereabouts was a mystery early today, was located in Chicago shortly before noon today. He had spent the night at a downtown hotel.

Governor Small, it was learned, has placed his case in the hands of a committee of five lawyers, who will handle all angles of the litigation. He was in conference today with his attorneys and political advisers.

CHALLENGE TO GOVERNOR.

The legal forces of Sangamon County were preparing to wage a bitter fight against any attempt of the Governor to evade trial through technical processes of the law. It was announced that State's Attorney F. Fred Mortimer would bitterly oppose a habeas corpus proceeding or a writ for change of venue from Sangamon County. Mortimer, in effect, flatly challenged the Governor to test his case before any tribunal.

"No man can evade the responsibility of a criminal act in this county," said Mortimer. "The man who believes he can do so is poorly advised."

The Governor's two principal legal weapons are the habeas corpus proceeding and a writ for a change of venue from this county. Use of either, according to Mortimer, will be fought through every court. Both would compel a test of the Governor's case, it was stated.

ARREST IN SANGAMON CO. AIM.

The State's attorney, anticipating a habeas corpus proceeding in Chicago yesterday, refused to permit Small's surrender in this city. The Governor's arrest within Sangamon County, it was contended, would compel his attorneys to bring the habeas corpus before the Court of Appeals for the Springfield district. He must first, however, submit to arrest. If he surrenders himself to the authorities he will be immediately released either under $50,000 bonds or on his own recognizance. The habeas corpus proceeding, it was pointed out, would then be brought to test the validity of the Governor's technical arrest, although its common usage is to obtain the physical release of a prisoner. The action, it was stated, would involve a new angle of the law itself and might result in a long drawn out legal battle over technicalities involving a question of the court's jurisdiction.

"The habeas corpus proceeding must be brought after the arrest of the Governor," Mortimer declared. "The legal forum for such an action is in this county. I cannot say whether a court in some other county could legally consider such a proceeding."

The Governor at an early hour had not replied to the request of Sheriff Mester that he submit himself to service of the warrants held here against him.

STRAY BULLET STRIKES WILLIAMSTOWN WOMAN

Williamstown, July 28.—Mrs. Winnie, ninety-five years old, grandmother of George A. Cluett, millionaire collar manufacturer of Troy, N. Y., was hit in the right shoulder by a stray bullet coming from a nearby woods as she was seated on a veranda of the Cluett home. The bullet, which it is believed was fired by a hunter whose identity is unknown, became imbedded in the flesh of Mrs. Winnie's shoulder, and owing to her advanced age it is feared serious complications may result.

WOMAN KILLED IN BROOKLINE AUTO CRASH

Several Other Persons Seriously Injured When Cars Meet Headon

One woman was almost instantly killed and several persons were severely injured when an automobile owned and operated by Dr. Fred F. Furfey of No. 125 Sumner road, Brookline, collided with a machine owned and operated by Mrs. Florence E. Basch of No. 5 Idlewild street, Allston, at Park and Marion streets, Brookline.

Mrs. Ellen M. Furfey, mother of Dr. Furfey, in whose machine she was riding, was instantly killed when the machine overturned pinning her underneath the car.

Miss Anna F. Furfey and Dr. Furfey were severely shaken up and sustained slight cuts in the face and arms.

Mrs. Mildred Boppe of No. 11 Idlewild, a passenger in the Basch machine, sustained severe cuts from broken glass. Mrs. L. P. Goldman of No. 437 Harvard street, Brookline, sustained a probable fracture of the right arm and several broken ribs.

Mrs. B. A. Levine of Trenton, N. J., received numerous cuts in the head and elbow. Mrs. Basch, the operator of the machine, received a severe shaking up and several minor cuts.

Dr. Furfew was driving north on Park street, while Mrs. Basch was going east on Marion stret, when the cars collided headon, both machines being completely wrecked.

Arrest Stops Betting on Races Under Capitol Dome

Washington, July 28.—Betting on horse races has been going on under the dome of the Capitol for months, it was revealed with the arrest of an alleged bookmaker.

The arrest followed complaints from several Congressmen that their clerks were spending more time "doping them out" than they were on actual work. Members of the Capitol police are said to have done nothing to discourage the presence of handbook makers in the Senate and House office buildings, and in the Capitol itself. Consequently a shake-up of the Capitol police is expected.

Walter Wade Davis, the alleged bookie, was released on $3,000 bail for the grand jury.

HOLYOKE CHLD, HIT BY TRUCK, DIES OF INJURIES

Holyoke, July 28.—Dorothy Davian, four years old, died at the Providence Hospital of injuries received by being struck by a motor truck, operated by Hermangilde Tanguay. According to witnesses, the girl ran directly into the path of the machine while playing.

WINS HIS BRIDE BY POSTAL WOOING

Roxbury Bachelor and Chicago Maid Figure in Long Distance Romance

"I never cared for women; I never paid court to women; I never expected to marry at all—till nine months ago a friend of mine showed me the picture of a cousin of his.

"That very day I fell in love with the lady. I met her three weeks ago. I became engaged to her two weeks ago. And not very long from today we're going to be married. There is such a thing as romance in the world, after all."

This is the naive recital of Richard S. Kaplan, of No. 24 Stanwood street, Roxbury. Kaplan is editor of the Suffolk Law School Register, a former member of the staff of the Boston American, and a young lawyer awaiting the results of his bar examinations to begin practice.

ROMANCE OF BACHELOR

His romance, so all his friends declare, is the romance of the hardened bachelor heart, against which all the fair maids had given up designs, that heart was so very toughened. But he's going to get married, now, "very soon," as he says.

The bride-to-be is Miss Betty Elizabeth Singer of Chicago, daughter of S. Singer, prominent Chicago architect. She, herself, is a member of the firm of David S. Goldstein of Chicago.

"You never think you will fall in love till you fall," young Kaplan is telling his friends today, "and the longer you hold off the deeper you're in, when you are in. Nine months ago, the very minute I saw her picture, I knew that was the only girl in the world for me. I wrote to her for eight months and two weeks. We each wrote daily, special delivery letters. The time came after a few months when the special delivery was altogether too slow. So we took to telegrams, finally to telephones.

"Then I just had to go to Chicago.

KNEW HER AT ONCE.

"I had never seen her in my life, but, bless your heart, I knew her the minute I spied her from the train window. And she knew me. She picked me out of a hundred men she had never seen before. Oh, you can't fool the eager eyes of love. So I visited her, at her house, and her parents treated me just like a son, for they approved the match. And my mother also is delighted, for she fell in love with my little fiancee's picture almost as soon as I did; and everything is all right, and say—just put it down from me that a man can go just so far, a boasting bachelor, but when he sees the right girl he's done for. You can't resist your destiny, ever, nor can you resist the right girl, though it's only her picture, while she, herself, is miles away. For love will find a way, and the old train will take you, on the wings of your impatience, over the miles to the girl who was meant for you, since ever the world began."

DUBLIN ROMANCE TO CULMINATE IN WEDDING

Worcester, July 28.—A romance of international flavor comes to light in the announcement of the engagement of Whitney Hart Shepardson, of Hamilton, N. Y., formerly of Worcester, to Miss Eleanor Cargin, of Greystones-by-the-Sea, Ireland. Mr. Shepardson is the son of Professor and Mrs. Frank L. Shepardson, formerly on the faculty of Worcester Academy.

During the war young Shepardson served with the U. S. Shipping Board and later was secretary to Colonel House, at the Peace Conference in Paris. Miss Cargin is a graduate of Dublin University.

SHORT LOBSTER CATCHERS ARE PROSECUTED

Several in Stonington Court as Result of War on Violators of Law

Stonington, Ct., July 28. — Acting under orders from County Game Warden Robert B. Chappell, Deputy Game Wardens Ross, Wilcox, O'Connor and Ramistella are continuing a round-up of alleged violators of the lobster fishing laws, with remarkable success.

Early in the week, the deputies arrested Joseph Victoria and Charles Davis, both of Stonington, on charges of possessing short lobsters. The former had forty-six short lobsters when arrested.

FAMILY DESTITUTE.

Before Judge F. H. Hinckley, in Stonington Court, he was fined $10 and costs, totalling $34.52. Davis' family was found to be in very destitute circumstances, and for this reason the charges against him were continued for eight weeks.

Andro Mixer and John M. Suza, both of Stonington, were also arraigned before Judge Hinckley, the former charged with possessing short lobsters, and the latter on a similar charge, with the additional charge of fishing without a permit. Mixer was fined $10 and costs, totalling $34.27, and Suza was also fined $10 and costs, totalling $36.07.

Several persons charged with fishing without permits were before the court, but were released when they agreed to file application for permits.

On their way back to New London, the deputy wardens came across Ira T. Lathem, also a Stonington resident, who, they claim, had short lobsters, but threw them overboard before his launch could be boarded. No disposition of his case has yet been made.

FISHING LAW BROKEN.

In half a dozen towns bordering on Connecticut and Rhode Island, there is evidence of the fishing license law being broken. For instance, a man holding a Connecticut license runs his boat into Rhode Island water, if the best fishing ground is there, and vice versa. When the wardens appear, they quickly get into their own State waters and have a home license to protect them.

Boy Vandals Utilize Vacant Houses as Skating Rinks

Several new houses on Mayflower road, Chestnut Hill, nearly completed, show the effects of vandalism on the part of boys in the neighborhood, whose ages range from seven to twelve years.

These houses are owned by John E. Comey, J. E. Holmes and the Cheney Lumber Company. It was discovered by the Newton police that the floors had been used for a skating rink, plumbing ruined, glass broken and paper on the walls torn in many places.

Three boys charged with vandalism will be summoned Friday into the Newton Juvenile Court.

FIVE PERSONS DROWNED WITHIN PAST 24 HOURS

Five persons met death while swimming within the past twenty-four hours. The victims were John Mulrenan, twenty-eight years old, of No. 170 Vine street, Everett, who drowned at Marblehead Neck; David Nelson, aged sixteen, who sank to his death in the Merrimac River at Newburyport; Jessie Durgin, eighteen, who died in the Saco River at Biddeford, Me.; Clarence Cutting, eleven, and Ernest Buttrick, ten, who drowned in Rochdale Pond, Rochdale. Mulrenan was seized with cramps while swimming off Castle Rock. Arthur Laskse of Cambridge, bathing with him, went to his rescue and barely escaped a like fate.

HELD FOR STABBING OF LAWRENCE MAN

Lawrence, July 28.—Following his arrest in Lowell, Charles Assad of No 363 Elm street, alleged knife wielder, was arraigned in District Court here and held in bonds of $3,000 pending the outcome of his victim's injuries.

John Michel is at the Lawrence Hospital, on the danger list, suffering from knife wounds in the abdomen and arm. Assad is also suffering from a chest wound which he received in the hand to hand duel with Michel.

STATE POLICE SEEK FIREBUG IN ANDOVER

Andover, July 28.—State police are investigating a series of suspicious fires at the Smith & Dove mill plant. For the past two months the company's property in Abbott Village has been the scene of several incendiary fires. The firebug evidently watched the movements of the night watchman and the fires, in each instance, were set while he was on his rounds in another part of the plant.

GERMAN SOLDIERS FIGHT WITH POLICE; 14 HURT

BIG SWIMMING RACE AN AID TO BEAUTY

Also Fine for Health, Say Doctors; Whole State Awaits American's Carnival

Fill in Blanks, Girls, and Join in Big Swimming Race

Entry for Boston American Girls' Championship Swimming race:

Name..............................

Age..............................

Address..............................

....

....

From all sections of the State comes word of the deep interest of girl swimmers in the big water carnival of the Boston American to be held in the Charles River basin, West End, Saturday afternoon, August 27. In many cities and towns delegations of girls are planning to come to Boston that day and join in the big swim of one and one-half miles for the major honor of New England amateur girl champion for 1291.

Physicians of note endorse such swimming races as an aid to health, and point to the vigorous exercise each girl gets who endeavors to set out in the water and reach a goal at a distance of one and one-half miles. They say that the propelling of the body by means of the arms and legs strengthens those members of the anatomy, develops lung power, and fosters and maintains proper breathing. No better exercise could be indulged in by girls to beautify their complexion and increase the gracefulness of their forms.

Having that in mind, the Boston American has arranged this wonderful carnival on a day which will afford thousands an opportunity to attend and see for themselves the immense amount of good derived by the contestants in the big swim. No more exhilirating sight is available for spectators of athletic events than to witness 100 heads bobbing up and down each anxious to outdistance the other, and the joy, hilarity and good-natured bantering of the contestants as they struggle toward the goal of their ambition.

The start of the race will be by pistol, fired by "Jack" Lane, and the sight of the girls as they plunge into the water from the raft near the Union Boat Clubhouse, at the foot of Revere street, is never to be forgotten.

And then comes the fight for the first five places, which calls for clever manoeuvering on the part of each girl, an education in itself; the cheers of the multitude on shore, and the cries of "Go to it, Kittie and Mame," etc., as the contest gets under way. What better sport could be arranged for girls? So, come on, girls, and get into the big swim. It may mean the placing of your name high upon the gilded scroll of fame as a swimmer.

Remember, all you have to do to enter your name as a contestant is to fill out the blank elsewhere on this page and mail it to the Swimming Editor, Boston American, No. 80 Summer street, Boston, Mass. No fee is required. There is absolutely no expense attached. The race is run annually by the Boston American at the same place. All previous events have been notable successes.

Entrants are invited to send in their photographs in bathing attire. Don't send in small snapshots. If you have no pictures call at the ninth floor of the Boston American and the photographer will do the rest.

PLAN FIELD DAY FOR THE IRISH REFUGEE FUND

Boston Unit of White Cross to Hold Big Carnival in Cambridge, Aug. 6

A huge field day and carnival for the benefit of the Irish Refugees Fund will be held Saturday, August 6, on Russell Field, Cambridge, it was announced today.

The affair, which is being held by the Boston unit of the American Auxiliary of the Irish White Cross, will include athletic events, Irish dances, music, and drills.

A black-and-tan "African Dodger," announced as one of the features of the program, will be present to receive whatever kind of reception the crowd sees fit to give him. A stray duck will be turned loose among several hundred blind-folded contestants, to be the prize of whoever catches him.

The day will be opened by a flag raising, the Stars and Stripes fluttering to the top of the pole to the tune of the national anthem, to be followed by the green, white and orange banner of the Irish Republic, which will float from an adjoining pole, while the band plays "Soldiers of Erin," and the ancient Irish song, "Cum-Na-Ban."

The athletic events will begin with a football game between the teams from Roscommon and Innisvail, after which "Sinn Fein" and "Wolf Tone" will stage a hurling match. Following these sports comes a long list of field events, including a three-legged race, obstacle race and the like. The strenuous sports will be closed by a chase for a greased pig, in true Irish style.

CHARGES CHECK RAISED FROM $10 TO $12,000

Manchester, N. H., Bank Gets Alleged Culprit Through His Odd Mistake

Manchester, N. H., July 28.—Fred C. Rade, claiming to hail from Sioux City, Iowa, was arrested by Sergeant William F. Foye in the brokerage office of E. C. Hamlin, after he had attempted to pass a certified check which, it is alleged had been raised from $10 to $12,112.99.

Rade ordered fourteen $1000 Liberty Bonds over the telephone on July 25 and on Wednesday telephoned to inquire if they were ready for him.

On being told that they were, he inquired how much they would cost him and was told that the total cost would be $12,712.99.

Evidently misunderstanding the seven for eleven he wrote his check accordingly and his unusual manner of doing so led to his arrest. The check as it was written called for twelve thousand eleven hundred and twelve dollars and ninety-nine cents and the figures were written in as follows: $12,1112.99. Holding Rade, the management telephoned the police and Rade was locked up on "suspicion."

A telephone to the Derry, N. H. National Bank on which the check was drawn, brought the information that Rade was given a certified check for ten dollars by that institution yesterday morning. Rade claims that three weeks ago he came from Sioux City where he is engaged in the Nursery and shrubbery business.

FEDERAL COURT TO DECIDE SHIP SEIZURE

Controversy Over Taking of 9 Vessels by Board is Transferred

New York, July 28.—The controversy raging over the seizure last week by the United States Shipping Board of nine vessels belonging to the United States Mail Steamship Company was transferred today to the Federal Court by Supreme Court Justice William P. Burr.

The question as to whether the temporary injunction obtained by the steamship company against the seizure is to be made permanent is now to be thrashed out in the Federal Court. A bitter legal fight over this question is looked for.

Offer to Buy Ships Is Under Consideration

Washington, July 28.—The offer of the United States Mail steamship company to purchase outright vessels which are involved in litigation arising out of the shipping board's attempt to seize them will be considered in "an orderly way" according to a statement issued by the board here today.

The shipping board statement follows:

"So far as the offer of the United States Mail Steamship Company to purchase certain ships is concerned, it will be treated in an orderly way.

"The main purpose of the United States shipping board with regard to the U. S. Mail steamship company, was and is to protect the government's interests and to keep the ships sailing. This, the board is determined it will do.

"It must not be forgotten, however, that the board has other important matters to attend to, such as the securing of an appropriation from Congress to maintain the operations of the board's vessels."

First Death from Hydrophobia in Seven Years

Albert Thornton Thompson, sixty-four years old, of No. 1395 Beacon street, Brookline, who died at the Psychopathic Hospital Monday, was a victim of hydrophobia or rabies, according to a statement issued by Medical Examiner Magrath.

Thompson became ill last Friday while at his Summer home in Marblehead, and specialists who were called ordered his removal to the Psychopathic Hospital. He died five minutes after arriving there. An investigation proved that Thompson, who was a lover of dogs, was scratched by a stray dog several weeks ago.

Thompson is the first man in seven years to die from hydrophobia in this city.

WOOD MAY OPPOSE FREE PHILIPPINES

Washington, July 28.—A preliminary report opposing independence for the Philippines at this time has been received at the war department from Major General Leonard M. Wood, it was learned.

General Wood and W. Cameron Forbes, former Governor-General of the islands, were sent by President Harding last Spring to investigate conditions. Their formal report will be submitted jointly to the President.

NAME OF BRYAN FAILS TO WIN OFFICERS

Escapes Second Charge of Speeding Only After Identification

Chicago, July 28.—William Jennings Bryan was twice arrested for speeding and had the further unpleasant experience of discovering a man who had never heard of him while he was racing along the North Shore to deliver a prohibition lecture in Waukegan.

He was first stopped in Antioch. "I am William Jennings Bryan," he told the be-whiskered constable. "I never heard of you, Mr. O'Brien," replied the officer.

"But I have been in politics nearly half a century," protested the patron saint of grape juice. "I have been a candidate for the presidency of the United States and Secretary of State."

"I guess you'll have to tell the judge about it, Mr. O'Brien," said the constable wearily. But he let Bryan go with a warning.

All went well until Bryan's speeding car was held up in Zion City. "I am William Jennings Bryan," he began. "I know," said the sardonic motorcycle officer. "I'm Woodrow Wilson. Come up to the station house and meet the kaiser."

But Bryan was identified by a prominent citizen and allowed to go.

ASSUMPTION GRADS TO HOLD REUNION

Worcester, July 28.—Graduates of Assumption College will hold their annual reunion at the college August 15, the Feast of the Assumption. About 200 are expected to attend.

SON MISSING SIX YEARS A SUICIDE

Lawrence Mother's Nation-Wide Search Ends With Message From Police

Lawrence, July 28.—The country-wide search conducted by Mrs. Antonia Wojelona for her son, Stanley, who disappeared from his home here six years ago ended today when police notified her that he had committed suicide in a lodging house at Toledo, Ohio.

Stanley Wojelona who was twenty-eight years old, left his home when he was twenty-two, and since that time his mother had heard nothing from him. Through newspapers and police departments of various cities she had searched the country for tidings of her boy. And, finally, after six years of waiting, police called at her home this morning with the news that he was a suicide.

Mrs. Wojelona, a widow, is prostrated with grief in her home, No. 84 Valley street.

TEN CHILDREN BITTEN BY NORTH ADAMS DOG

North Adams, July 28.—Ten small children were bitten by a dog roaming in the vicinity of North street before the animal was shot by its owner. The dog is believed to have been affected by the heat. None of the children were seriously bitten and it is not believed serious complications will follow in any of the cases.

IT HELPED HIM BEYOND BELIEF, SAYS R. C. DAVIS

Well Known Hotel Owner Relieved of Troubles of Twenty Years' Standing by Taking Tanlac—Statement Remarkable.

"Tanlac has helped me so much I just can't think of anything good enough to say for the medicine," said R. C. Davis, well known owner of the Hotel Brunswick, Nantasket Beach, Mass. Mr. Davis has run the Hotel Brunswick for the past twenty-five years and is one of the most popular hotel men in the state.

"For the past twenty years or more," he continued, "my stomach has given me no end of trouble. I got to where just a sandwich and a glass of milk would make a big meal for me, and I was actually afraid to eat even that much, for I had indigestion so bad that I often thought the pains would drive me distracted. I was extremely nervous and couldn't remember when I had enjoyed a good night's sleep. I was always tired, and felt so miserable I would have given almost anything for something to help me.

"Hearing so much about Tanlac, I commenced taking it and have now finished my fourth bottle. Well, to tell it all in a few words, I now feel like a boy of sixteen, haven't a trace of any of my troubles left and have an appetite like a farm hand, and never have a touch of indigestion. My nerves are steady and I sleep so sound every night I have to be called in the morning. In fact, since Tanlac has ended my twenty years of suffering, I actually believe I feel better than I ever did before. Tanlac is just simply great, there's no getting around that fact."

Tanlac is distributed by International Proprietaries, Inc., and sold in Boston by all Liggett's drug stores.—Advertisement.

CONNOLLY DESCRIBES ORGY OF VIOLENCE BY BLACK AND TANS

TORTURED IRELAND

By JAMES B. CONNOLLY

Famous New England Author and Journalist.

When it was all over I met Mrs. O'Donovan. She told me of her experience on the other street leading to the barracks. She was approaching the barracks when a Black and Tan asked her roughly where she was going. She replied that she presumed she had a right to approach the barracks. "You know who I am—Mayor of the city," Mrs. O'Donovan said to him.

"I know who you are very well? Why do you come here?"

"I have come here to pray!"

"Go to your church and pray!" And roughly man-handling her, he drove her away from the barracks walls.

Four times on her street the Black and Tans charged the kneeling crowds, but after they grew weary of pummelling the people would form anew for the recital of the rosary. She told me that on hearing the sound of the death volley on her street the people's voices hushed; but only a moment.

A voice began the "De Profundis"—the kneeling people took it up. They then sang "To Jesus Heart All Burning," then finished the rosary.

I told her what I had noticed on my side of the barracks; that there were no tears, and she answered:

"There are no tears in the South and West. Tears belong to easier times. In this last fight for Irish freedom there shall be no relenting of our purpose until the goal is reached."

I was told how the young girl who held the Sacred Heart banner had it torn from her after a sergeant of the Black and Tans and struck her with his fist, of how he threw it onto the street and how another Black and Tan danced on it, tore the banner from the pole, broke the pole into three pieces and beat the women back with one of the pieces.

Other Black and Tans used their rifles as clubs to beat kneeling women with.

Keane's wife and mother were there. His mother was an old woman and his wife was heavy with child. Some one brought a chair for his wife. Black and Tans tore the chair from under her, then broke it up and drove her and the old mother far down the street.

"And I did not even hear the shots," said the poor little wife, when she was told it was all over.

I read all the papers I could get hold of after that execution, but no paper had anything like the truth of it. If they had published the truth of it they would have published no more for a while.

DON'T KILL PRISONERS

There was an I. R. A. man executed in Cork a few days before I was there, and I could not forget what he said after his capture: "I am a soldier of the Irish republic and entitled to the treatment of a captured soldier. The I. R. A. does not kill prisoners, but do with me as ye will."

They did with him; twenty-eight hours after they got him in their hands they shot him.

Learning in Limerick that Casey's father lived just outside the city, I took a run out to see him. I met him as he came out of the creamery where he worked, a tall, broad-shouldered man with a rugged, kindly face. His mind was still full of his boy. I had already heard from the people around that young Casey was a great lad.

"Six foot two he was," said the father, "and that wide," spreading his hands to a width beyond his own wide shoulders. "And the thick black hair of him! and a kindly lad, and——" They are shedding no tears in Ireland, but even the big, strong men have to pull up sometimes.

It was not enough to execute young Casey. They burned down the home of his people. I looked at the ruins and asked Mr. Casey what he was going to do for a home now. His answer was an unconscious, enlightening comment of the English rule in Ireland. "I would rebuild my house if I thought they would not burn it down again."

I had come out to this little village with no idea of finding any great devastation, and it was not great, as the Irish measure of devastation today. I knew of much, much worse even then, and saw much worse later; but being there I looked around, and here was what I saw and was told in this little village of—oh, there could not have been more than a few hundred people in the whole place.

A few doors from the Caseys' home was another wreck of a home, the O'Connells'. The military without warning of any kind came along one day, bombed the house and set fire to what was inside of it.

I looked over the ruins with Mr. O'Connell, a fine old man, who could discuss affairs of the world at large with intelligence and perspective. A makeshif ladder led up to what was once a room on the second floor. He looked sadly around on the wreck of it.

"Thirty-four years ago I built this house and here I brought my wife. We were both young and hopeful and not long married. For thirty-four years this was our own room, and now——" A window without a single light of glass, busted walls and ceiling were all that was left of it.

I went from that ruin of that home to where the O'Connells were at this moment dwelling. One room they had now, with slabs of slate for a flooring, the best a poorer neighbor than himself could spare, and there father and mother and two daughters were finding shelter. There were two boys who did not have to be provided for; the military were doing that in one of their jails.

Down the village street was the home of the Lynchs. They were away at the time. I asked the neighbors why the Lynch home had been destroyed. God only knew. Why had they all been destroyed? There might be a boy or two or three in the family, and no matter how quiet they might be, if he didn't make a spy of himself for the military then on the run he had to be, and, of course, no boy but wants to see his own at times; and home they would steal of a dark night; but no Irish man or woman must harbor a rebel, their own son though he be.

A felony that is, and so the home and all in it is bombed for punishment, and maybe torturing and beatings with it. The Lynchs had two boys in jail, too. And it was so with the widow Portly—two boys in jail, too.

More warring on women, it seems. I walked out to where Mrs. Portly lived. I found her working on a little patch of a truck garden, striving to earn something toward keeping herself alive. She was living in a little bit of hut behind her destroyed home, the home which the two boys had been keeping for her before they were put in jail.

Paris, July 28.—The German government says a dispatch from Cologne quoting the Frankfort Gazette, has requested the United States to maintain the American troops on the Rhine in order that Berlin may be in direct communication with American interests for the purpose of discussing certain financial and economic matters. It is added that the United States has agreed to their request.

Just One Application and the Hairs Vanish

(Modes of Today)

A harmless, yet very effective, treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hairs, apply paste and after 2 or 3 minutes remove, wash the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results, buy the delatone in an original package. Mix fresh as wanted.—Advertisement.

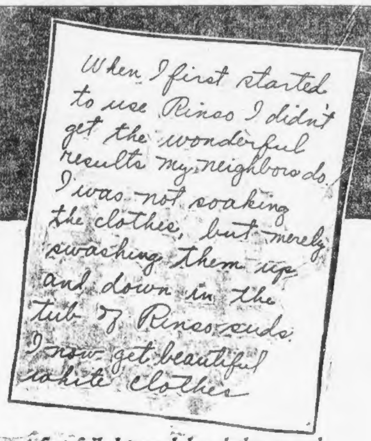
"Don't rub your youth away"



When I first started to use Rinso I didn't get the wonderful results my neighbors do. I was not soaking the clothes, but merely swashing them up and down in the tub of Rinso suds. I now get beautiful white clothes

Is any one else doing what Mrs. Emily Morton was?

Mrs. Morton, who wrote us this letter, at first failed to soak her clothes according to the directions below. Now that she is soaking them she gets the same wonderful results with Rinso as her neighbors do.

Among the thousands of enthusiastic letters we have received about Rinso there have been a few like Mrs. Morton's raising some question about its use.

We are giving on this page all the questions we have received and our answers. If any other woman has any question, won't she write us?

Should I dissolve Rinso in boiling water first?

Question: "Should I dissolve Rinso in boiling water first or pour it right into the tub from the package?"

Answer: You will get a much richer, soapier suds if you dissolve Rinso in boiling water, according to the directions below, before pouring it into your tub.

Should I use Rinso on silks?

Question: "I have been using Rinso for over a year for all my regular wash. I would never have believed it possible to get clothes clean without rubbing. I have never used it on my husband's silk shirts or on my own silk things. Would it be all right?"

Answer: No; Rinso is made especially for the regular family wash. Silks, woolens, and the very fine sheer fabrics should be washed in Lux.

Is any other soap needed with Rinso?

Question: "Do I have to use any other soap when I use Rinso?"

Answer: No. Soak the clothes with Rinso as directed below and the dirt will all come out and leave the clothes spotlessly clean. No other soap is needed.

Does hard water make any difference?

Question: "I have used Rinso for nearly a month. It makes the work easier but I still have to rub quite a little. I use it according to directions—half a package to a tub of clothes. The water is very hard here. Do you suppose that has anything to do with it?"

Answer: Yes, when the water is hard, a larger amount of Rinso must be used to get a good, rich, soapy suds. Try using ¾ or even a full package to a tub.

Can I use Rinso in my washing machine?

Question: "I have a washing machine. Can I use Rinso in it?"

Answer: Rinso is the ideal soap product for washing machines. With it you don't have to do any rubbing—not even the most badly soiled spots. Follow the regular directions given below. Soak the clothes. Then, before operating the machine, add a fresh Rinso solution, using the same amount of Rinso as you used for soaking. *No other soap is needed when Rinso is used.*

Rinso is made by the makers of Lux. It loosens and dissolves the dirt from even the heaviest pieces of the weekly wash, without injury to a single fabric.

Don't rub your youth away. Get Rinso today from your grocer or any department store. Lever Bros. Co., Cambridge, Mass.

Dissolve

For each tub of clothes thoroughly dissolve a half package of Rinso in two quarts of boiling water. (Where water is hard or clothes extra dirty, use more Rinso.)

Rinso 8¢

Made in U. S. A.

Pour into tub

of lukewarm water—mix well. Keep adding the solution until you get a good, rich, lasting, soapy suds even after the clothes have been put in.

Then let your clothes soak

—and rinse without any hard rubbing

Soak one hour—two hours—overnight—whatever time is convenient. These wonderful mild suds loosen every particle of dirt. Rinse, to remove the loosened dirt, till the water runs clear.

RAYMOND'S

NO SHOPPERS

The Democratic Store has no shoppers. A shopper is a person employed and sent round by would-be merchants, and imitators, to find out how HIGH they can mark their goods. They're in here snooping round most all the time, and go back to their boss and report all about our prices, etc., etc. So the chances are if you find anything actually marked down in any of these places, It's because the Democratic Store's price was so low, it forced em. I wish they'd keep outter here and not steal our thunder, and if they hain't got sense enough to mark their goods right they'd better sell out to Raymond's.

CAMP MEETING TO SMOKE OUT SMOKERS

Ribald Singing and Midnight Flashlights Also Stir Ire of Methodists

Douglas, July 28.—Smoking, singing of ribald music and flashing of lights into bedroom windows at night have aroused the ire of the officials at the Methodist campgrounds here.

At a meeting of the Douglas Campmeeting Association vigorous measures were taken to put a stop to these annoyances next year, after they had been described by Rev. H. N. Brown of South Manchester, Ct., clerk of the association.

"We have received many complaints from cottagers," said Rev. Mr. Brown. "One woman told me that someone with a flashlight was shooting it in windows until 2 o'clock in the morning. We have known of card playing and smoking on the grounds.

TRANSIENTS BLAMED.

"The trouble has been with the transients who have not caught the spirit of the place. Cottage owners have been perhaps a bit lax in picking the sort of people to whom to let their cottages. This is a religious camp and a religious time.

"We will have an indorsement from someone we know for every roomer and tenant in the camp next year. The owners will send with the tenant or roomer a letter of introduction."

Fred A. Hillery, member of the by-laws committee, explained what it was planned to do to maintain the standard of the camp.

HORSES GNAW TREES.

"Folks come in here," he said, "and hitch their horses to the trees. The horses gnaw the bark and spoil the trees. That will be forbidden. Smoking will be forbidden for two reasons, the second being fire risk. Trees are half the beauty of this camp. Some cut them down and others plant them. We have little objection to the planting, but we won't have them cut down without the permission of three directors.

"The by-laws will tend to give us a clean, healthy camp free from disturbance and with everyone in it vouched for by someone known to us."

These officers were re-elected: President, H. M. Randall, Brooklyn, N. Y.; vice-president, Rev. J. H. Short, Cambridge; clerk, Rev. H. N. Brown, South Manchester, Ct., and treasurer, Fred A. Hillery, Providence.

TWO CAMBRIDGE TRUST COMPANIES ARE MERGED

The Harvard Trust Company, Central square, Cambridge, and the Charles River Trust Company, Harvard square, formally merged into one bank today. The new institution will bear the name of the Harvard Trust Company, although the two offices at the old locations will continue. The combined resources of the new institution are said to be around $15,000,000.

DIVER BREAKS SPINE OFF WOOD ISLAND

Diving into shallow water off the Wood Island Bath House, Nicholas Mazza, twenty-two years old, of No. 218 Chelsea street, East Boston, struck his head and received a fracture of the spine. He was transferred from the local Relief Hospital to Boston City Hospital. His condition is regarded as serious.

Retired Ministers Called to Fill Vacant Pulpits

The dearth of candidates for the ministry of the Episcopal Church necessitates the calling out of retired ministers from many sections of the country to take temporary charge of vacant churches in several parts of the country.

Bishop Lawrence of the Episcopal diocese of Massachusetts thinks the difficulty will increase instead of diminish. Many lay readers have been employed this Summer to fill the gap made by vacant parishes in this State.

GUIDES SEARCH FOR BODY OF DR. STONE

Rescued Wife Describes Spot Where Purdue President Met Death in Rockies

By International News Service

Banff, Alberta, July 28.—Mrs. W. E. Stone, wife of the president of Purdue University, who lost his life while climbing in the Canadian Rockies, is recovering today from the effects of exposure and lack of food endured while she awaited the arrival of rescuers. She is under care of a nurse in a camp on Marshall Creek, but it is expected that she will be brought to Banff soon.

Guides and parties of mountaineers are continuing their search for the body of Dr. Stone, which, contrary to previous reports, is not at the bottom of a chasm, but is somewhere near the foot of Rock Chimney, a towering ledge on the slope of Mount Eanon, Mrs. Stone has described the spot.

According to this late report, Dr. and Mrs. Stone had almost reached the top of Mount Eanon, when they encountered Rock Chimney. Dr. Stone was above his wife, unroped, while Mrs. Stone was roped to a rock. He was testing the rock above him when the rock on which he was standing gave way and he hurled over his wife and fell far down the mountain to a spot difficult of access.

Mrs. Stone lowered herself as far as possible by means of the rope, but could not reach her husband. She attempted to leap to another ledge, but fell into a crevice and was marooned there five days without food.

Mrs. Stone was carried nine miles on a stretcher after being rescued from her perilous perch on the mountain ledge. She was so weakened by exposure and lack of nourishment that she could scarcely stand.

SUSPECT ARRESTED IN BUFFALO MURDER CASE

Buffalo, N. Y., July 28.—A new turn was given today to the unsolved murder of Luther P. Graves, Yale athlete and prominent society man, in the arrest of Helmet Richter, twenty-nine years old. Graves was killed in the fashionable section of the city on the night of March 17. Richter, according to the police, was arrested as a result of the seizure of letters between him and another man, in which the Graves case was discussed.

Leading Japanese Think London Sees Harding Call as Solution of Alliance Problem

By International News Service.

Tokio, July 28.—Distrust of the former ally, Great Britain, appears to be one of the results in Japan brought about by the issuance of President Harding's disarmament conference invitation.

While it was issued as the call of the American President for a conference to be held in the capital city of the United States, many leading Japanese criticise Great Britain, saying that Great Britain awaited the call of Harding as a solution of the Anglo-Japanese alliance renewal tangle and the need for retrenchment in naval building that confronted Great Britain.

Kojiro Sugimori, well-known professor of Waseda University, whose opinion on international matters is regarded highly throughout Japan, called upon the Tokio foreign office to begin a campaign at once for the resumption of close relations with Russia, as an offset to what is termed the coming "Japanese isolation."

BRITISH ATTITUDE.

"An unmistakable indication of the future position of Japan," writes Professor Sugimori, "is the evident change in the attitude of Great Britain toward us. Britain no longer feels the need of an alliance with Japan.

"She counted on us to check the aspirations of Germany in this part of the world and there are many reasons that tend to show that had it been a fact that Germany was powerless earlier, Britain would have abrogated the Anglo-Japanese treaty before this.

"The majority of the English people do not desire a renewal of the alliance because they are convinced that a war between Japan and America would result in a defeat of the former. Even if England were pitted against the United States, the people think they would have little chance of victory. These considerations and the attitude of the Dominions are sufficient reasons to make England hesitate about renewal of an alliance with Japan.

ALLIANCE WITH SOVIETS URGED.

"As things have come to this pass, the only way for Japan to avoid the impending isolation is by the formatin of an alliance with Soviet Russia.

"I do not stand for Bolshevizing Japan. What I do advocate for Japan is the cultivation of Russian friendship. By joining hands with Russia, Japan can hope to be saved from isolation. By continuing to take cues from the United States and Great Britain, Japan will perpetrate a condition of affairs which will make certain Japan's isolation. Russian friendship must be the pivot around which future Japanese diplomacy operates."

AUTO HITS WOMAN IN NEWBURY STREET

Mrs. Elma Collins, 42 years old, of No. 378 Newbury street, received contusions and abrasions on her face and arms when she was struck by an automobile owned by George P. Sennott, School street, Roxbury. After treatment at City Hospital she went home. Mrs. Collins was crossing Newbury street when the accident occurred.

FREES LAWRENCE MAN OF MANSLAUGHTER

Lawrence, July 28.—After hearing evidence in the charge of manslaughter brought against Alexander Arena, of Union street, this city, Judge Jeremiah J. Mahoney dismissed the case.

Arena was accused of having caused the death of Salvatore Aresco, a companion, with whom he had engaged in a wrestling match at his home, July 2. Both men are ex-soldiers. On his deathbed Aresco absolved Arena of any blame.

HUSBAND SUES WIFE FOR $30,000 "WAGES"

New York, July 28.—August Koehler has brought suit in Supreme Court to compel his wife, Olga L. Koehler, to pay him $30,000, his "wages" for the last three years, for living with her. According to Koehler's petition, his wife promised him $10,000 a year if he would resume living with her after they had separated. He kept his part of the bargain, he told the court, but his wife failed to keep hers.

DR. FRED W. THYNG A TUFTS PROFESSOR

Several new appointments have been made to the teaching force of Tufts College. Chief among the additions are the appointment of Dr. Fred W. Thyng as professor of anatomy and Dr. Jesse L. Conel as assistant professor. Dr. Thyng was formerly professor in anatomy at the Medical School of New York University and Dr. Conel was his assistant.

WILL OPEN NEW SUBWAY STAIRWAY THIS WEEK

The new stairway between the upper and lower platforms at the Park street station of the Boston Elevated has been practically completed, and will be thrown open to the public some time this week, according to Ernest R. Springer, chief engineer of the Boston Transit Commission. New passageways were necessitated by the great increase in the number of passengers to and from the Cambridge tunnel trains.

Work was also begun recently on the platforms of the stations at Park and Boylston street. These platforms will be lowered so that they will slope to the tracks, eliminating the danger of mis-steps on the part of persons about to board trains.

URGE LAND TAX IN PROPOSED MEASURE

Delegation Asks Senate Committee to Repeal Present Federal System of Levies

By International News Service.

Washington, July 28—Declaring that the present system of Federal taxation is responsible for the existing business depression because it has reduced the purchasing power of the people, a delegation representing the committee of manufacturers and merchants on Federal taxation appeared today before the House Ways and Means Committee and urged the repeal of all excise, excess profits and corporation taxes, the increasing of inheritance taxes and the establishment of a tax on all land not actually used for agriculture.

The delegation contended that the taxation of land values would not injure business and that it would "promote building, solve the housing shortage, provide employment for hundreds of thousands of workers, and stimulate all the building trades."

"Land is the only thing, the use of which is stimulated by taxation," the delegation told the committee. "Tax business too heavily and business ceases because unprofitable. Tax land values and the land must be used to provide the tax. If the owner is unwilling to use the land, the necessity of paying the tax induces him to part with the land to someone who will use it."

A proposed bill imposes a tax of 1 per cent. on the privilege of holding land and natural resources valued in excess of $10,000 after deducting the value of all improvements.

Included in the delegation were John S. Codman, president of the Fabrical Belting Company of Boston, and J. A. Whitfield of Washington.

METROPOLITAN TRUST PICKS NEW DIRECTORS

At a regular meeting of the Board of Directors of the Metropolitan Trust Company of Boston yesterday, the following new directors were elected: Professor Charles B. Breed, consulting engineer, Beacon street, Boston; Reginald C. Heath, treasurer Bigelow, Kennard & Co. Inc.; Edward S. Foster, treasurer of the Carr Fastener Co.; George T. Cobb of the firm of Sands & Leckie, hide brokers, Boston, and Hugh J. Robertson, Jr., of the American Agricultural Chemical Co. Professor Breed and Mr. Heath were also elected to the executive committee.

6 DELEGATES KILLED IN RUSSIAN WRECK

London, July 28.—Six foreign delegates returning from the Congress of the Third Internationale recently held in Moscow have been killed in a train wreck, according to a Riga dispatch to the Express.

The train, which was a special, was filled with delegates from the various countries en route to the frontier. It was wrecked by a loose rail on a high embankment at Kursk. Many of the delegates are reported seriously injured.

MOTHER IN FIGHT FOR 'KIDNAPED' CHILDREN

Mrs. Gavin Opens Legal Battle for Son and Daughter "Stolen" by Father

Legal proceedings were predicted Wednesday when Mrs. Frank J. Gavin, of No. 24 Hall street, Revere, spent the day in conference with her attorney regarding the recovery of her two children, Frank Jr., six years old, and Agnes four, "kidnapped" by their father from the home of Mrs. Gavin's sister, Mrs. Clarence Higgins, in Melrose late Tuesday night.

Mrs. Gavin is making every effort to have her children returned to her custody immediately.

Because no legal separation had been granted to Mrs. Gavin, the police of Melrose and Revere were unable to interfere when the father visited the home of Clarence Higgins in Melrose and placed the children in an automobile, and despite the interference of Mr. and Mrs. Higgins disappeared.

WOMAN IN HOSPITAL.

Mrs. Higgins is now in the Melrose Hospital suffering from numerous cuts and bruises suffered when she was thrown from the running board of the car and dragged along the street.

According to a story told by Mrs. Frank Rose, a sister-in-law, trouble had been existing in the Gavin home for some time, but for the sake of the children the father was to have been given another chance. By his action Tuesday in taking the children forcibly from the home where Mrs. Gavin had placed them he is barred from further consideration.

"NEVER ACTED RIGHT."

"He has never acted right," said Mrs. Rose. "He has not cared for the children or his wife, only himself. I hope that he is punished for his acts."

Other relatives of Mrs. Gavin stated that she intended taking action against M. G. Dullea of Franklin street, Revere, who, with his wife, a sister of Mr. Gavin, aided the latter in taking away the children Tuesday.

Action will be begun as soon as possible for the return of the children.

EVERETT MAN DROWNS OFF MARBLEHEAD NECK

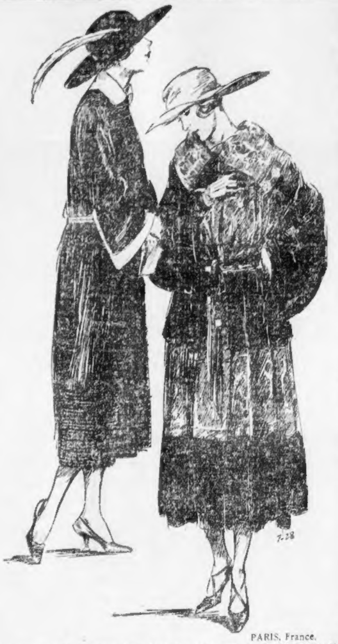
Marblehead, July 28.—Despite the heroic efforts of his two chums, John Mulrennan, twenty-eight years old, of No. 170 Vine street, Everett, was drowned off Marblehead Neck when he was seized with cramps. His chums, John and Nat Turner of Cambridge, when they saw him sinking, swam to his rescue, but were unable to reach him in time. His body was recovered.

went to the treasury.

LITTLE GIRL CUTS HEAD IN HOSE BATH

Thirteen-year-old Margaret McCormick of No. 5 Whitney Place, Roxbury, was treated at City Hospital for a slight scalp wound. Grouped with a number of other children, who local firemen were treating to a shower from a hose line near Smith and Oregon street, Margaret slipped, striking her head on the sidewalk.

Fresh From Paris



PARIS, France.

AUTUMN is no longer a time that stretches away in the dim distance, and Jenny acknowledges its proximity when she offers the black serge coat at the left. It presents the straight silhouette trimmed at the edge with row upon row of narrow black cire braid. The turned-over collar and wide slit cuffs are of white pique, and the belt is of white kid stuffed with gold "coins." To trim Autumn hats all manner of feathers are to be used, and this one of black felt employs a single long white quill.

THE practical Autumn coat at the right is developed in black duvetyn banded with Paisley. The deep turned-over collar and very wide sleeves are in keeping with the unusual fulness of this model, whose narrow duvetyn girdle adds a long tassel composed of duvetyn slashed in narrow strips. The untrimmed hat is of dull henna felt.

Major Fred Moore Weds

Major Fred Moore, treasurer of the Harvard A. A. of Cambridge, was married in New York to Mrs. Louise Becker of that city. The wedding took place at St. Matthew's Church and was performed by Dr. Peckham, the assistant rector. Major Moore and his bride intend to spend the Summer at Hyannis and afterward live in Brookline.

BROTHER OF WOMAN SERIOUSLY ILL SOUGHT

Friends of Mrs. Evelyn Robillard, of No. 576 Tremont street, have asked The Boston American to help in their search for her brother, who, living somewhere in Boston, does not know that his sister is dangerously ill at the City Hospital.

Mrs. Robillard, on the danger list at the hospital for several days from a complication of diseases, was reported slightly improved by hospital authorities. Her brother's name and address are unknown to the friends who sent out the appeal.

DENY GERMAN BRIDGE WRECKER WILL BE FREED

Moncton, N. B., July 28.—Officials of the Dorchester Penitentiary deny reports that orders have been received there for the release of Werner Horne, the German officer who was given a ten years' sentence for attempting to blow up the C. P. R. bridge at Vanceboro during the war. Reports sent out about the German's alleged release are termed ridiculous by prison authorities.

FRANCE TO SEND AID TO UPPER SILESIA

Delay of Reinforcements Dangerous, Briand Tells Ministerial Council

Paris, July 28.—A most important ministerial council was held today, at which Premier Briand again voiced the determination of France to send reinforcements to Upper Silesia, despite Great Britain's protests.

President Millerand presided. The Upper Silesian question, including the attitude France will adopt at the supreme council meeting on August 4, was discussed thoroughly.

Premier Briand declared it was necessary to send reinforcements to Upper Silesia before the supreme council met, because delay was dangerous. He declared that the cabinet approved this course.

Negotiations between the French and British foreign offices regarding the Silesian issue continue.

Word was received today from Berlin that Germany has agreed to abide by the decision of the Supreme Council regarding Upper Silesia and to allow the passage of allied troops through Germany if necessary.

Opposition of British Is Reaffirmed

London, July 28.—The British cabinet today discussed the Upper Silesian issue and afterwards it was reported that Great Britain is determined to oppose to the end the French demand for the immediate dispatch of reinforcements to Silesia.

It is understood that Marquis Curzon, acting upon the advice of the cabinet, will send a note to Premier Briand reaffirming the British view that the situation in Upper Silesia does not justify the sending of more troops. Marquis Curzon will urge upon France that the supreme council assemble before August 4 if possible.

MANY HURT, TWO BADLY, IN TRAIN DERAILMENT

New Carlisle, Ind., July 28.—Many persons were hurt, two perhaps fatally, when New York Central train No. 28, leaving Chicago at 11:15 o'clock last night, was derailed at the New Carlisle crossing today, after striking a heavy truck. The locomotive and ten mail, baggage and passenger coaches left the track as a result of the impact. The engineer, A. P. Johnson, and Fireman D. L. Flynn were perhaps fatally injured. Both stuck to their posts and were badly scalded.

Louisville, Ky., July 28.—Michael FitzGerald, thirteen years old, ill with sleeping sickness, has entered on the 127th day of an uninterrupted slumber, according to physicians here. Since March 22 he has been fed only liquid food. It is believed his case may prove a record for continuous sleep.

REVERE SUED BY PAVING BIDDER

De Stephano Brothers Allege City Gave Job to Simpson Company Illegally

Declaring that the city of Revere made an illegal agreement with the Simpson Brothers Corporation for paving work on Broadway, and that city officials gave the job to the Simpson company after rejecting a bid that was several thousand dollars lower, the DeStefano Brothers, Inc., has filed in Supreme Court a bill in equity against the City of Revere and the Simpson company.

According to the bill, no contract was ever entered into between the city and the Simpson company, although the agreement under which the work was to be done called for an expenditure of $200,000. The bill also alleges that last May, after all bids for street work had been rejected, city officials changed the specifications and gave the work to the Simpson company.

The cost of the work, under the alleged no-contract process, has exceeded the $200,000 appropriated, the bill continues.

The bill asks that arrangements made between the city and the contracting company be declared void, and also requests that the Simpson company be ordered to account to the plaintiff concern for profits made.

GEN. DURYEA'S SON KILLS SELF WITH PISTOL

Commits Suicide in New York Office, Shooting Himself Through Heart

New York, July 28.—Harry H. Duryea of Roslyn, L. I., wealthy and socially prominent, was found dead from a shot through the heart in his room in the office of the American Wood Working Machinery Company here.

The death is recorded as a suicide in the records of the office of the medical examiner. The verdict was the result of the investigation by Dr. Thomas H. Gonzales, who reports that the wound was of the "direct contact" sort. He said the bullet had passed horizontally through the heart, which indicated that the shooting had not been accidental.

FOUND BY TYPIST.

Duryea had purchased a .38-calibre automatic pistol with other accessories for a hunting trip but a short time before the tragedy.

Duryea's stenographer said she had just left his office when she heard a shot and the thud of a falling body. Running back into the room she found her employer lying face downward on the floor. The bullet which pierced his heart had gone completely through his body, plowed through a chair and entered a wall.

When she was about to leave the room, the young woman said, Duryea had picked up the pistol and was examining it as she closed the door.

BROTHER KILLED FATHER.

Duryea was forty-seven years old. He was a director of the company in the offices of which he was shot. His father was the famous General Hiram Duryea, millionaire starch manufacturer and commander of the Duryea Zouaves, noted in the Civil War.

General Duryea was shot to death in his Brooklyn home in 1914 by Chester B. Duryea, brother of the man killed here. The slayer was adjudged insane.

An estate of $1,000,000 was left by General Duryea. Of this, one-third each was bequeathed to his sons, Chester B., Harry H. and a daughter, Mrs. Henry C. Anderson.

Motion Picture News

By FRIEDA DAVIS

IT IS a noticeable thing that in a motion picture theatre today one hears less complaint among the audiences about the number of names given at the opening of a picture than formerly. First comes the announcement by the producer giving the name of the company and the name of the star or story, whichever is being featured.

Then in succession we see the names of the author, continuity-writer, art director, director, photographer, editor and title-writer. Time was when grunts were heard on all sides. "Why give us all those names?" people demanded. "They don't mean anything to us."

Now that movies are no longer the novelty they were in their early days, the audiences are becoming more discriminate. They want better stories, better productions, better players, and want them made with the greatest care and artistry.

To that end producers have scoured the country, and other countries as well, in some cases, to get the best material and workers nor their production. Individuality is beginning to count. Pictures are not turned out as if they were cut from the same piece of material. D. W. Griffith's pictures are different from all others; Marshall Neilan's films stand out as Neilan's only; Paramount pictures have their stamp clearly on them, while Goldwyn's, Universal's, Fox's, and Metro's are each different from the others.

The names shown at the beginning of the pictures have meaning for the movie-goer today. When he sees the name "John Smith" flashed on the screen, he knows what to expect, and when he likes John Smith's work he knows to whom to give the credit. Each person in pictures is getting recognition for his part in making this universal entertainment a success.

MARION DAVIES

BEING a movie star lets one in for queer tokens of esteem from admiring fans sometimes. Marion Davies is discovering that. While she has been the recipient of unusual gifts from time to time, they were of the sort that were harmless enough about the house.

The other day, however, it was something else again! She received from South America two marmosets. They are still shy and retiring beasties, tired from their long journey and getting acclimated, but Miss Davies declares that there is a glint in their eyes that indicates they won't be shy long. She likes them so much she won't give them up, and meanwhile is keeping breakable things out of their way. At present, to the holy terror of the servants, they have the entire run of Miss Davies' home.

BETTY COMPSON PROTESTS

BETTY COMPSON

MRS. LYDIG HOYT started something in the movie circle of Hollywood when she made the announcement on her return from Europe that long skirts will be worn during the coming season.

Betty Compson has voiced the sentiments of the movie people of the West on the subject. "Mrs. Hoyt doesn't dictate styles for American women. I'll tell you who does, the moving pictures. Care and good taste must be exercised in costuming for the pictures, for there are millions of critics of every gown.

"Short skirts," she finished up vigorously, "are neat, attractive, and sensible. The movies are going to 'keep 'em above the ankles'."

SOCIAL REGISTER STUFF.

A SUPERCILIOUS member of the most select Eastern social circle was playing an indifferent game of polo in Santa Barbara, California, a short time ago. He stopped and stood by watching a young man who was an adept at the game. When the younger one stopped for a few minutes, the supercilious Easterner rode over to him and remarked affably.

"It seems so good to meet a real gentleman out here. My name is Horace St. John Irvington of Castleton-on-Sea."

The other looked him over cooly. "Re-ally," he drawled, "I'm Charles Chaplin of Hollywood on location."

CHAPLIN'S next feature, by the way, "The Idle Class," is finished and ready for distribution. He gave a private showing of this film in Pasadena, California, the other day which savored somewhat of a professional matinee.

SCORES HURT IN DOUBLE FIRE ON NEW YORK 'L'

Panic Results When Smoke Fills Trains on Manhattan Bridge

New York, July 28.—Scores of persons received minor injuries early today in a panic resulting from two city bound elevated trains catching fire at the Brooklyn end of Manhattan Bridge. Police reserves had to be called out to preserve order.

The trains were coming into the city from Coney Island and were heavily laden. An explosion underneath one of the cars of the first train filled it with choking, black smoke. The lights went out and in the confusion women became panicky and began smashing the windows to get out.

The second train meanwhile was endeavoring to push the smoking cars from the right of way and a short circuit resulted in the second fire.

HOOD EMPLOYES HOLD 10TH OUTING AT WOBURN

Eight hundred members of the H. P. Hood & Sons Mutual Benefit Association took a day off to stage their tenth annual outing at Idlewood Grove, Wenham. Twenty big motor trucks made the trip to Wenham. There a long list of sports, starting with baseball and ending with bathing, were capped by a big outdoor dinner. After the truckload of eatables had been disposed of most of the crowd adjourned to the dance hall. The affair was featured by a "fakers' row," a replica of the concession strip at Revere Beach. The concessions were operated by members of the association, and proceeds

REBELS TURN ARTILLERY ON SPANIARDS

Uprising in Morocco Spreads; Villages and Farm Houses Burned by Insurgents

By International News Service.

Paris, July 28.—The native uprising against the Spaniards in Morocco has become general throughout the mineral and agricultural district of Kert, according to a dispatch received here today from Oran.

The rebel tribesmen have artillery and are reported to be bombarding the important coast city of Melilla. The Spaniards are said to have suffered heavy losses.

Following the capture of Marchiva, the tribesmen fought their way up the coast and established positions on Cape Agua.

The landing of Spanish reinforcements at Melilla has been rendered perilous by the artillery fire of the Moors.

The insurgents are burning villages and farmsteads, but are not molesting the inhabitants.

JUDGE FOSDICK TAKES STAND FOR TUFTS

Continued From Page 2.

ed? A.—In the Spring of 1920.

Q.—Then no action was taken until 1920 in the Helen A. Morse case? A.—I believe not.

BROUGHT SUIT IN 1920.

Q.—And you never brought suit or gave any instructions until you notified Mrs. Brady in 1920? A.—No.

Q.—Was any action taken against the bail in that case by any of your assistants? A.—Not to my knowledge.

Q.—And no suit has been entered at any time? A.—Not that I know of.

Q.—These cases were defaulted March 13, 1918, and one case was placed on file November 4, 1919? A.—Yes. The bail was worthless.

Chief Justice Rugg:

Q.—On June 4, 1917, you wrote to Mr. Wright and notified him that a Grand Jury summons he had received in the Mishawum Manor case was sent by mistake? A.—Yes.

Q.—Had you given general directions that summonses be issued in that case? A.—Yes.

Q.—When you gave these general instructions did you have in mind any particular action for the Grand Jury? A.—No. I wished to get the complete story in the Mishawum Manor case if possible before taking any action.

Judge Fosdick Tells of Nol-Prossed Cases

Judge Frederick W Fosdick of the Superior Court, who lives in West Medford, was the next witness. He testified that he was born in Fitchburg, which was the native city of District Attorney Tufts, and he had known Tufts all his life.

He testified he was appointed a deputy in the office of District Attorney Tufts after Tufts first election and occupied the office for two years when his title was changed to that of second district attorney. On January 15, 1920 re was appointed a justice of the Superior Court.

Judge Fosdick was asked by Attorney Johnson to tell his connection with the Lowell midwife cases which figured in Allen's charges against Tufts.

"There were from eight to ten of these cases," testified Judge Fosdick, "and all but one of the women involved was unable to speak English. The exception was Mary Sullivan. I handled them for District Attorney Tufts. I had conferences with State Officer Keating and with counsel in the case. It was finally agreed by counsel that the case of Mary Sullivan would be tried as a test case and that if she were convicted the other defendants would plead guilty and a similar disposition be made of all.

MOVED FOR SENTENCE.

Q.—Did you try the Mary Sullivan case? A.—I did. And I moved for sentence without making any recommendation.

A.—Was that case tried before Judge Dubuque? A.—It was.

Q.—Was Tufts ever consulted about those cases? A.—He was not. I tried them and handled them entirely.

Attorney Johnson then took up the cases of George T. Perry, Barry and Collamore, auto cases.

Judge Fosdick testified that he was present at an interview between Tufts, William J. Corcoran and Inspector Timothy J. Sheehan of the Boston police. Corcoran, he said, declared that his clients (Barry and Pembroke, two defendants) were dealers in a large way in old and new cars.

Many times they found they had stolen cars, he said, sold to them. Corcoran added that he had no doubt that Sheehan was right and that the cars which had gone to Melrose were stolen machines. He was sure his clients had no criminal intent. Corcoran was counsel for Barry and Pembroke.

REFUSED RESPONSIBILITY.

Corcoran asked Tufts to let the cases be continued, witness went on, provided his clients agreed to make reparation. " said," Judge Fosdick testified, "it was too burdensome to follow such reparations. Corcoran then suggested that I be the one to pass on the justice of claims of persons who had machines stolen. I refused to take the responsibility."

Q.—Did you tell Tufts that you hoped the cases would not be tried? A.—I said I hoped not, as it would take a long time and play havoc with our list. I said I would favor letting the cases rest if reparation was made. Tufts later told me that he had agreed to hold the cases and I was to consider reparations.

Q.—Did Tufts have any talk with you about his financial affairs at any time? A.—Yes. Shortly after he took office in 1917 he told me he was thinking of making a will. He said he wished to make his father-in-law, Mr. Nickerson, executor, and he wished to have me a subsidiary executor. He asked me if I would so act.

Q.—When was this? A.—In 1917, in June. Or, maybe, early in July.

Q.—What else did he say on that subject? A.—He said there was a fund which he was holding in trust for his mother so long as she lived. He said it was not a trust, however, but that he was so holding it for her benefit, and later for his wife and children. He said he wanted me to keep that in mind. He told me that his father had made payments to him and was still making payments to him from his property. He mentioned the amount at the time. It was in five figures, but I can't now recall the amount.

MENTIONED PHONE STOCK.

Q.—Did he mention what the property was? A.—At that time, I remember, he mentioned telephone stock.

Q.—Did you have any knowledge of the financial methods of Tufts' father? A.—I had some knowledge.

Q.—What property did he have, to your knowledge, beside telephone stock? A.—There was a house and barn and land in Fitchburg, which the city took over twenty-seven years ago as a site for a high school.

Q.—Do you know what amount the city paid when the property was taken over? A.—No.

Fosdick taken in cross-examination by Allen. Fosdick testified that when he heard Tufts was going to run for district attorney he contributed $100 to his campaign fund and went on the stump for him. He also contributed $100 in the second Tufts' campaign.

Judge Fosdick said that George Stanley Harvey was campaign manager in the first Tufts campaign.

Q.—Do you know whether the telephone stock was bought from the sale of the homstead to the city of Fitchburg? A.—No.

Q.—Tufts was anxious to raise money for his campaign? A.—I understood so.

Q.—What did you know about his financial condition? A.—I simply knew about his worldly position.

Q.—Did you have any knowledge of his financial condition? A.—I can't answer that.

FEDERAL AGENTS VAINLY SEEK RUM BOATS

Fail to Locate Launches Reported Taking Whisky From Schooner

Atlantic City, July 28.—Aroused to desperation over the report that hundreds of cases of Scotch whisky from the schooner Henry T. Marshall are being landed through the inland passage on Egg Harbor Bay, government agents spent all last night in a hunt along the three-mile limit endeavoring to catch up with some of the bank boats reported engaged in this illegal traffic.

Late last night three more customs officials came here to reenforce the inspectors already here, and without any help from other government departments the customs men took it upon themselves to try to establish definitely that the schooner Marshall is lying off shore and unloading its cargo into the smaller carriers.

It is asserted that the marshall defied Federal marine law and came into the Inlet and up to Gardner's Basin and unloaded under the very noses of customs officials 100 cases of Scotch.

One customs official, who has been working on the smuggling charges for several days, admitted that they knew lots, but were afraid to "tip off" any of it for fear of a "leak."

"The booze is here and it's coming in almost daily," said this official. "We are covering up every point possible in our effort to locate the exact landing place of this booze and we are sure to come up with it soon. We know that plenty of booze is brought in through the inland passages toward Port Republic and Tuckerton. But so far our efforts to grab the guilty ones have been fruitless."

FIRST CORPS AREA OFFICERS SHIFTED

The following changes among the officers of the First Corps Area are announced: Majors Harry C. Allen, C. A. C., assigned from Boston to Fort H. G. Wright, New London; Logan W. Series, from Fort H. G. Wright to coast defences of Long Island; H. H. Fletcher, of the Second Corps Area, to temporary duty with the 36th Infantry, Camp Devens; James K. Cain, ordnance department, from Panama to Watertown Arsenal; Francis J. H. Behr to Fort Monroe, Va.; S. A. Moulton, M. C., Fort Banks to Carlisle Barracks, Pa.; Captains David W. Craig, from ordnance department of Technology to Watertown Arsenal; Donald T. Nelson, 3rd cavalry, Fort Ethan Allen, to Fort Riley, Kan.; Roy L. Bowlin, ordnance department, to Watertown Arsenal; B. E. Sawyer, 3rd cavalry; Isaac G. Walker, 3rd cavalry to Fort Riley, Kan.; Lieutenant Colonel A. F. Clifton, from Panama, to command of the signal corps, First Corps Area.

CHARGE MAN ANNOYED WOMEN IN BATHING

Kastein M. Roulard, believed by the police to be the man who has annoyed women at the Somerville bathing beach, was arraigned in Somerville Court today charged with assault and battery on Miss Mary Harrington of No. 65 Highland avenue, Somerville. His case was continued until Monday. At that time, it is believed, several other charges of assault will be made against him.

ATTACH CAR OF CAMBRIDGE TAX DELINQUENT

Martin T. Peterson May Get Back New Auto by Paying $480 and Costs

Martin T. Peterso nof Cambridge, employed with the Moback Tool and Machine Company, can recover his new automobile by paying to the city treasury something over $480.

Peterson, according to records in the treasurer's office, has not paid his personal tax for two years, and is listed as a $480 delinquent. Constable Martin Welch, who was trying to find him to serve a warrant on him, today learned that Peterson had bought a new machine.

Welch hurried to the Moback plant at No. 330 Atlantic avenue. In front o fthe plant was Peterson's new touring car. Welch seized it and had it towed to the Custom's House Garage.

City Collector Parke says Peterson may recover his car by paying up his taxes, plus a considerable amount i nfines and penalties.

A "raid" conducted oy a pseudo Watch and Ward Society agent, in which a cabaret singer was ordered to leave the floor, featured the ninth annual outing of the Dorchester Board of Trade at Nantasket.

The "raid" was staged by Raymond P. Delano and John J. Dailey, secretary of the association, and for a time was accepted as legitimate, amid great indignation.

The outing was attended by about 350 members and friends, and was considered the most successful yet held. Lieutenant-Governor Alvan T. Fuller was the principal speaker, and an address was also made by President Charles G. Bancroft of the International Trust Company.

During the afternoon there was a program of sports on Kenberma field, with a baseball game, tug-of-war, wheelbarrow race, fat man's race, blindfold contest and drinking contest.

FUNERAL TOMORROW FOR MATTHEW FOLEY

Funeral services for Matthew Foley of No. 48 Henshaw street, former election commissioner, will be held tomorrow at 9 a. m. from St. Columbkill's Church, Brighton. Foley was for thirty-eight years connected with the city election department. Although he had been in poor health for months, he persisted in staying at his job until two weeks ago, when a succession of collapses in his office caused him to be removed to City Hospital. Death came yesterday.

FALL FROM CAMBRIDGE ROOF IS FATAL TO BOY

Manuel Mello, twelve years old, died today in Cambridge Relief Hospital as a result of injuries he sustained late last night when he fell from the roof of the plant of the Easton Steel Company, on Binney street, East Cambridge. Young Mello, with a number of companions, had climbed to the roof in a search for pigeons, a large number of which have their nests under the eaves of the plant. Losing his balance, he fell twenty-five feet to the ground, receiving a broken left leg, internal injuries and a possible fracture of the skull. His home is at No. 129

NEW ENGLAND LINES DENIED CLAIMS

Commerce Commission Declines to Change Distribution of Freight Revenue

Washington, July 28.—The New England railroads today lost in their effort to secure a larger share of the joint rates on through shipments of freight, originating in New England, the Interstate Commerce Commission holding that no basis is afforded for valid prescription of the division of such freight.

"Inasmuch as the volume of interchanged tonnage into New England considerably exceeds the outbound movement, "the commission stated. "The defendants must have the expense incident to originating and furnishing cars for a larger proportion o fthe inter-changed traffic and it must follow that it is usually less difficult for the shippers and the complainant lines to be supplied with empty cars. It also follows that the complainants have the expense of returning many cars without load to the defendants."

The Commission pointed out that "All inter-changed carload traffic originated by the complainant roads in New England destined to points throughout the United States and Canada must be distributed by the defendant; all inter-changed traffic from points outside of New England delivered by the complainant must have originated at some point of the defendant's lines, and that the expense of furnishing cars and other expenses incident to its origination must have been borne by one or more of them."

Financial needs and handicaps resulting from the terminal character of the New England railroad operations were outlined to the commission by the carriers in presenting their appeal for readjustment. They also called attention to the alleged disapproportionment effect of recent wage increases upon their operating expenses, the increased cost of fuel, and other railroad materials and supplies per diem, freight care hire, and the peculiar character of their traffic.

Both the defendant and complainant roads are to subimt proposed readjustments to the commission to remove certain inconsistencies portrayed in the record of the case.

FORESTRY OFFICIALS ON PLYMOUTH TRIP

Fifty forestry officials representing New England States and colleges left Boston today on a trip to the Myles Standish Forest, Plymouth, owned by the State. The trip constitutes the Summer conference of the New England section of the Society of American Foresters, composed of national and State forestry officials, the heads of college forestry schools and forestry experts employed by lumber companies.

AFGHAN RECOGNITION SEEN IN HUGHES' ACTION

Washington, July 28—Although the United States has not formally recognized Aghanistan, it was officially stated today that this government expected that other nations would look upon the action of Secretary of State Hughes in receiving Mohamed Wali Kahn and the Afghanistan Mission as tantamount to recognition. M. Khan presented credentials as Minister to the United States.

Paris Doctor Coins Name for "Rattle-Brained"

Paris, July 28.—"Follets" is the name which Paris mental doctors have given to those of their patients who are what in Plain American is called rattle-brained.

There is need of a semiscientific name to describe them. It seems, for since the war the "follets" of this world have increased enormously in number and in proportion.

In Paris, says Dr. Toulouse, one of the foremost French authorities, there are 100,000 of them. That means that among a population of 2,000,000 one has a fair chance of meeting a "follet" in every street. Most of them were not born with their brains rattling, but became so in the war and since, according to doctors.

So the League of Hygiene in France has opened a hospital—it must not be called an asylum—for the rattle-brained.

JURY TO GET SOX CASE WITHIN 24 HOURS

Chicago, July 28.—The baseball scandal case will be in the hands of the jury within twenty-four hours, it was indicated today by attorneys for the remaining "Black Sox" and the one alleged gambler involved in the throwing of the 1919 World Series.

Although technically still listed among the defendants in the "Black Sox" case, George ("Buck") Weaver and Oscar ("Happy") Felsch are virtually free today of charges that they participated in the plot to throw the series.

Judge Hugo M. Friend has made it plain that he will not countenance a verdict of guilty against these players.

Weaver and Felsch were openly jubilant when court reconvened this morning. The smiling "Buck" confidently predicted he would be playing again with the White Sox within a few weeks.

Whether Weaver and Felsch will be restored to good standing in organized baseball, however, depends upon the action of Judge K. M. Landis, arbiter of baseball affairs. Judge Landis has given no indication of what his attitude toward the players will be.

William L. Veeck, president of the Cubs, was the only baseball official who would comment on the case. Veeck said:

"Whether they play again is something for Judge Landis to decide. But they can't play for the Cubs. We don't want them."

A petition signed by 10,000 fans asking the reinstatement of Weaver is to be filed with Owner Comiskey of the White Sox as soon as he is exonerated.

PROTEST GROWS OVER CLOSING OF DEVENS

Senators and Congressmen Take Up New England Fight to Keep Cantonment

Widespread protest from all over New England over the abandonment of Camp Devens as an army cantonment is voiced and U. S. Senators and Congressmen from this district have been flooded with appeals to induce the War Department, if possible, to revoke the order.

Congressman Frederick W. Dallinger has announced that he will lead the fight on the floor of Congress to save the army post at Ayer, which is looked upon as a strategic point for army mobilization.

Congressman James A. Gallivan announces that on a personal appeal to Secretary of War Weeks he was informed that the discontinuance of the camp is necessary on account of reduced appropriations.

AMAZED AT WEEKS.

"The Republican administration," said Congressman Gallivan, "cares nothing about the protests from a Democratic Congressman, but I am amazed at the attitude of Secretary Weeks because he has always believed in his own Commonwealth. Camp Devens is absolutely needed for all New England."

In a telegram to the Boston American Senator Frederick Hale, of Maine, says:

"I shall be glad to co-operate with other New England Senators to have Camp Devens retained. I am taking up the matter with the War Department."

Brigadier-General John H. Sherburne, commanding the Fifty-first Brigade of Field Artillery, National Guards, adds his protest to the others against giving up the camp.

IS STRATEGIC POINT.

"The whole of New England is aroused over the abandonment of Camp Devens and its importance as a camp in this section of the country," he says. "I am well assured that if anyone looks carefully over the map of New England and studies the coast line of this section of the country he will be convinced that Camp Devens represents a strategic point.

"We cannot afford to give it up on this account and this side of the matter ought to be more emphasized. We are apt to make mistakes in retrenching expenses in the army and to replace Camp Devens by keeping Camp Dix does not mean economy in my opinion.

"Not only for military training should Camp Devens be kept, but if we are ever put on the defensive in this part of the country, we shall then see what an important part Camp Devens will play in this venture."

Miss Anita Phipps, daughter of Brigadier General Phipps, U. S. A., and director of hostesses in the United States, visited Camp Devens yesterday. She pronounced it one of the best equipped cantonments in the country.

SOVIET RUSSIA WANTS HELP FROM U. S.

Would Seek Loan If America Were "Receptive," Says Emerson Jennings

By International News Service

Riga, July 28.—Soviet Russia desires a conference with the United States to secure financial and economic aid for the rehabilitation of the country, but will not suggest it until assured that America is in a receptive mood, according to Emerson Jennings, president of the American Association to Promote Russian Trade, who is in [illegible] after [illegible] seven months in Moscow.

Despite famine and cholera, the Soviet government at Moscow will retain complete control of Russia, declared Mr. Jennings. "During my stay in Moscow I had conversations with members of the Soviet Supreme Council for national economy regarding the possibility of securing financial aid from the United States and the services of American engineers.

"It was suggested that an American [illegible] take complete charge of the economic efforts of the Soviet government, [illegible] industry, operate the railroads, rehabilitate the [illegible] and put the national currency upon a firm foundation.

"The whole thing is to be financed by American capital, payment to be made upon a production percentage basis.

"The initial expenses would be obtained through an American loan to Russia. If this loan could be arranged the money would be spent for the necessary American machinery. The loan could be amply secured by jewelry collected by the Soviet. The collection would include the famous Kremlin exhibition, which has taken centuries to complete. If all these rare and valuable jewels were thrown upon the jewelry market at one time I believe they would break it. The collection is valued at billions of rubles."

Cohasset Folk to Give Play in Aid of Radcliffe

By BETTY ALDEN

A number of well known members of Boston society are in charge of the presentation of a play, "The Crimson Cocoanut," to be given tonight in the Cohasset town hall for the benefit of the Radcliffe College endowment fund. Miss Dorothy Bolles, of Commonwealth avenue, who was in charge of the dances at the Cohasset pageant, is a member of the committee, as well as the Misses Martha Thacher Brown, Susan Cabot Lyman, Louisa C. Richardson, Priscilla Gough, Margaret Lee and Julia Collier. Miss R[illegible] Dennen of Marlboro street will play the part of the aged waiter enamoured of the restaurant cook.

Many of the North Shore society folk who [illegible] are flocking this afternoon to "Prides Hill," the [illegible] Prides Crossing residence of Mrs. M. Graeme Haughton of Commonwealth avenue. At "Prides Hill" the exclusive audience will be given an opportunity of acquiring [illegible] end of "depth and appreciation" [illegible] for Mlle. Germaine Cossini, of Paris, will render French poems with musical adaptations as well as a talk on Moliere. [illegible] that this would be quite enough for one Summer's day. Germaine, I hear, has created not a little furore along the North Shore, where, to use a vernacular expression, her musical adaptations are being "eaten up" by simmering society folk. Mlle. Cossini is to give two more of her afternoon affairs, the next one August 11th at "Eaglehead," Manchester, the estate of Mrs. Ira Nelson Morris, and the last August 18th at Mrs. Henry Sears' home in Beverly Cove.

Took Glandex—Feels 20 Years Younger!

Mrs. Driscoll Had Been Weak, Sickly and Run-down for Years — Read Her Amazing Statement!

"I only wish I knew of Glandex long ago for it would have saved me [illegible] of suffering," said Mrs. Nora Driscoll, a highly esteemed resident of Cambridge, Mass., living at 322 Harley Street.

"I had been in failing health for a number of years. Then three years ago I had a bad attack of influenza which came very near being the last of me. My husband and children had about given up all hope of my recovery.

[illegible] house and [illegible] school to [illegible] I was so weak I couldn't walk [illegible] the floor without assistance. I was under a doctor's care, but no medicine seemed to do me any good. I had no appetite for anything, my stomach was in a terrible condition and I was troubled with gas formation so that sometimes I could scarcely breathe. I had terrible headaches, backaches and dizzy spells. I also was very nervous and irritable and could not sleep nights. Why, I had hardly enough energy to raise my hands.

"I had about given up all hope when I heard of Glandex. I began taking it and it was surely just the medicine I needed, for I began to pick up at once. I have not had a headache or dizzy spell since the first bottle. My appetite is just fine. I sleep soundly every night and I'm getting all over that nervousness. My kidneys and liver are again in fine condition and I never have backaches any more. I have gained 12 pounds and my old time energy and ambition have returned so that I now do all my housework alone. My husband and all my friends say they never saw me looking so well. Why, I just feel 20 years younger! I think Glandex is the most wonderful medicine in the world and can not find words to express my gratitude for what it has done for me."

BILLIARDS UP IN MAINE WOODS DIFFICULT

Frank Reed Under Normal Conditions Would Be Class A Amateur

J. E. Buldt, an expert amateur billiard player who spent a number of years in the timber section of northwestern Maine, asserts that persons who have ever acquired ordinary or more than average skill at billiards will [illegible] in credible [illegible] to indulge in something [illegible] game.

The reason for this assertion is that at Van Buren, on the St. Johns River, or the Canadian border, he found a club in which on the [illegible] dilapidated [illegible] table he ever saw concrete balls and [illegible] completed what was called a billiard equipment.

"The balls were of ordinary building concrete and the members proudly declared: 'We had them made right here.'

"I joined the club and persuaded the members to have the table renovated and get a set of ivory balls [illegible]

"The [illegible] of the organization was [illegible] chief of customs who [illegible] star half back in a Maine college football team.

"In any place where he would have had access to good billiard equipment he would have been a Class A amateur.

"With comparatively little practice with ivory balls he [illegible] a sure 14 man on a four and a half by nine foot table. When they were procured the balls were [illegible] quality and [illegible] it was impossible to keep them in as good condition as they were when first used."

As a matter of fact Lepinte appeared so small on the horse that there were many persons who could not see him.

• • •

On being congratulated after the boy's first race, Lawrence was jokingly asked if he had any more youngsters in the cradle, but the trainer replied: "Wait, and you'll see this boy make good."

• • •

Lepinte has [illegible] for today he is eagerly sought by owners and trainers [illegible] weighted horses. At the beginning of the year he [illegible] the public favor [illegible] long-priced horses [illegible] post. It was [illegible] mounts returned [illegible] of 25 [illegible] against.

He now has a contract with Lawrence which brings the boy some 25,000 francs a year, inclusive of his percentage on winning rides.

MEDBURY

Says a Bigamist Is a Mathematician Who Adds One and Carries Two

Marriage is a problem in arithmetic. Figures don't lie, but they often exaggerate.

Before marriage you're one. Then you add a wife to your family and you're nothing.

While you're [illegible] it's addition. After you get wed it's subtraction.

She takes everything from one.

You can figure out how many times two goes [illegible] but you can't tell how many times she goes into your pockets.

Divorce is two divided by a judge.

A woman who lives in Boston and goes to Reno is trying a problem in long division.

A bigamist is a guy who adds one and carries two.

One mathematician made a mistake. He added one [illegible] but he forgot to carry his [illegible]

A man can do his own addition, but he has to hire a lawyer to do the subtracting.

When your wife divorces you, according to her lawyer, he's taking one [illegible]

When you take one from one it only leaves one answer—alimony.

Married life is made up of two things: Fractions and fractures.

A woman who marries a guy and gets all of his money in six months is good at short division.

The average woman only asks you for fifty per cent. of your salary. She takes the other fifty per cent. without asking for it.

Here's a little example in matrimonial algebra: "If you have fifty thousand dollars and you leave your wife ten per cent. of it, what do you have?" The answer is a law suit.

There is an old saying, "Take care of your pennies and the dollars will take care of themselves." This is changed now to "Take care of your dollars and the war tax will take care of the pennies."

The two dollars [illegible] pay for a marriage license is nothing but a war tax.

If you think arithmetic has nothing to do with marriage, just try to add another wife without subtracting one.

If you do this you don't have to figure whether the answer is right or not, the jury will prove it for you.

He was at his best against Niles. The [illegible] for Shimidzo when [illegible] Niles tried to beat Shimidzo [illegible] at the net [illegible] he could not bring it off.

• • •

Shimidzo [illegible] with somewhat [illegible] Kumagae [illegible] Samidzo and Niles, who has a fine forearm drive from the [illegible] the battle [illegible]

• • •

In these exchanges Shimidzo exhibited fully as much speed as Niles, and much better control.

• • •

The Japanese won the first set 9-7, then ran off the others 6-4, 6-3.

• • •

Late in the match Niles attempted to take the net against Shimidzo but a few well hit balls and passes drove him back to the baseline.

• • •

Kumagae and Williams had an interesting match for four sets. When the fifth set started the former American champion fell into some of his best tennis and he overwhelmed the Japanese. He scored repeatedly [illegible] aces and placements. Kumagae was soon groggy in making effort to follow the fast pace and was an easy victim.

• • •

The scores were 3—6, 6—4, 4—6, 6—4, 6—2.

The third round match between Phil Neer the Intercollegiate champion and W. J. Bates was a terrific affair. It went five sets and at the end Neer collapsed on the sidelines.

• • •

Both players are from California. Neer won the first two sets, 6-4, 7-5. Then he lost the third 6-4. At the rest period, Neer drank two bottles of ginger ale. He had been playing in the sun without wetting his head and after taking the cold tonic he returned to the court.

• • •

Bates won the fourth set 6-4 and in the fifth set Neer was so used up that he could barely hit the ball. Bates was weak and the last few games these boys played did not resemble a dashing match for the Longwood Bowl. They could hardly stand on their feet. Bates won 6-1.

• • •

Neer was just able to give him a handshake and then stagger to the sidelines where he went down. Physicians attended him. He came close to having a sun stroke.

• • •

Wallace Johnson, veteran Philadelphia chop-stroke player, was the fourth to reach the semi-finals. He won easily from F. S. Pfaffman, 6-1, 6-2, 6-2.

Shimidzo and Johnson meet at 4 p. m. today on the exhibition court and Bates and Williams at 3:30 p. m.

Referee's Decision Will Hold, Declares Conway

JOE DARCY LOOKS LIKE THE BEST PROSPECT AMONG HEAVIES

Well, that's that.

Now, who's the next, if there ever is to be a next?

Look over the list of the heavyweights of the world, then pick out the town butcher at home and start grooming him.

There is a famine in heavyweights and nothing in sight that even threatens to be a real champion.

The heavy list reads like a [illegible] of [illegible] factory. Look it over:

[illegible]

The odor is that of fromage.

[illegible]

The list reads like a catalogue of punching bags for any first-class man, and it will be hard to discover any one in the entire list who can even persuade a small proportion of the fight fans that he has a chance to win.

[illegible]

He has not progressed as his admirers expected him to, and he has not shown the hitting power or the ring generalship which makes champions. Still he is strong, willing and beautifully built, and he can hit at times.

[illegible]

This boy has been coming along in fair shape, according to Australian reports, and has beaten Blackburn, who was considered Australia's best bet.

EDDIE SHEVLIN SUBMITS TO OPERATION ON NOSE

By JACK CONWAY

Eddie Shevlin, brilliant Roxbury welterweight, is going under the knife. For the past [illegible] Shevlin has been bothered by nose trouble. A blow scored by Steve Latzo in their tussle at the Boston Arena aggravated the ailment to the point that will require immediate surgical attention.

[illegible]

"After reading all the startling news about Johnny Wilson being a real champion, we would like to know why he positively passes up Pat Reed, acknowledged by all the fans as the best real middleweight in New England. Wilson's last opponent in Boston, George Robinson, was beaten twice quite easily by Reed.

We offered to let Wilson name his own terms, but he is always dumb when Reed's name is mentioned. Reed is taking a rest just at present, and is nursing a badly damaged hand that he received in the Tommy Robson bout, but pluckily went through with the Jack Malone bout, four days later, and was slightly outpointed by Malone. Malone was the lucky boy that day, for Reed not only had a very bad hand, but was very stale, weighing in, ringside, at 151½ pounds, which is about three or four pounds lighter than his usual fighting weight.

"Reed will take a trip home to see his family in Minnesota, to be gone about a month, and hope some of the following prominent middleweights will pluck up enough courage to meet him in the ring on his return:

"The winner of the Gibson-Platts bout.

"Jack Malone.

"Mike O'Dowd or

"The most desired opponent of all, Champion Johnny Wilson."

[illegible]

Those gentlemen who attend all the honest-to-goodness boxing shows are already trying to dope out the probable winner of the eight-round tussle between Benny Leonard and Lew Tendler, which will be staged in Philadelphia on August 12. Tendler must score a knockout to win Leonard's title. There is little chance of his accomplishing this result as Leonard is too fast and skillful to permit himself to get in the way of a wild left hand swing propelled by the Quaker City southpaw. And with the mill going the distance the chances are that the champion will pile up enough points to gain the popular decision.

FINANCE AND BUSINESS

By B. C. Forbes

By charging high rates for money the banks impose a heavy burden upon the business concerns, and failures are thereby increased. Failures usually entail losses upon banks. Hence, it is poor business for banks to impose onerous interest rates on their clients.

* * *

This simple truth needs to be drawn to the attention of many bankers today. Despite the reductions in rates made by Federal Reserve banks, the banks who are members of the system have not lowered their charges to commercial borrowers in the same degree. When the leading Federal Reserve banks recently cut their rates to 5½ per cent., some objection was raised on the ground that such a step should not have been taken until the rates charged by banks had declined considerably further. It was pointed out that the Bank of England's discount rate invariably is higher than the rates quoted in the open market, and that similar conditions should be brought into vogue here.

* * *

But does any sane person contend that the Federal Reserve Board should not do anything to bring about comfortable money rates if the bankers persist in levying unreasonably high rental charges for credit granted their customers?

The state of industry, trade and employment at present is such that no stone should be left unturned by the Federal Reserve Board or by any other responsibe organization or institution or individual to stimulate improvements. It is incomparably more important that business and labor be revived without further avoidable delay than that the banks should add to their profits by charging interest rates calculated to handicap the revival of active times.

* * *

Bluntly, American bankers cannot be complimented on their record of the last few years. Pertaining to their record following the armistice they lent themselves short-sightedly to the wild orgy of inflation and speculation of 1919 and the early part of 1920. They made loans which they had no business to make. True, when the bubble burst, many financial institutions, particularly those in the largest centres, threw themselves into the breach with unparalleled vigor and with no small degree of success. They worried and worried night and day over the salvaging of threatened industrial and commercial concerns. Never before have the banks undertaken such heavy loads, or, it should be added, handled them with greater success.

* * *

One deplorable result has been that, having had their fingers burned by playing with speculative fire, many of the banks have since applied the screws to all borrowers indiscriminately. It is more than time that common sense and discretion were exercised by the banks in granting credits, so that everything possible may be done to quicken the revival of all legitimate business.

* * *

The "Warning to the Bankers of America," published in this column a fortnight ago, has been reprinted all over the country by publications, by commercial bodies, by corporations and by others. Telegrams and letters of endorsement have poured in. Senator Owen, "father" of the Federal Reserve system, remarked to me the other day: "You have succeeded in doing, by one article, what I have failed to do by two years of persistent effort. You have compelled the Reserve Board and also the bankers of the country to sit up and take notice. The last reduction in rates by the principal reserve banks followed the publication of your warning."

* * *

Senator Owen added: "Your warning to the bankers of America was justified. They have been frightened and demoralized by the incredibly stupid and dangerous policies of the Federal Reserve Board. After allowing inflation and speculation to run riot far too long, the Reserve Board started to mark up its rates. In the Spring of 1920 the boat began to rock. The stock market showed signs of demoralization. Rates ran up as high as 50 per cent. in some cases. To my knowledge the Reserve Board urged bankers to discriminate against borrowers dealing in non-essentials, but the board refused to define what were and what were not non-essentials. The result was that discrimination was not used. Early in 1920 I went to the governor of the Reserve Board and, fearing trouble, urged him to warn the bankers to withhold credits from profiteers and those speculating unduly but not to penalize those engaged in legitimate production and distribution. As you know, a system of progressive or penalizing rates was introduced which made it impossible for many institutions to draw freely upon the reserve system. The Reserve Board would not listen to me. I wrote letters to them and also took up the matter on the floor of the Senate. But all without avail.

* * *

"Wages have been deflated, business has been deflated, but has the wages of capital, interest, been deflated? What is reasonable wages for capital? The only answer is, the experience of interest-making before the war. The French rate was 3 per cent. Belgium had a 3 per cent. rate uninterruptedly for half a century. The average rate in London was between 3 and 4 per cent. What was the margin between the interest on deposit and the interest charged by the banks in America? It was under 3 per cent. before the war. Before the war 3 per cent. government bonds commanded a premium. That is evidence of the fair return on capital safely employed. The Federal Reserve Board has been busy deflating commodities and labor; but the Federal Reserve banks have made over 100 per cent. a year under this mismanagement, and have justified their conduct on the ground that this extortion and usury went into the Federal treasury. That only accentuates the fault and does not extenuate it. They should lower the rate of interest steadily until it reaches the normal of 3 per cent. They should use their influence against making loans for speculative purposes, and in favor of loans for legitimate production and distribution.

* * *

"The true policy for any country is to keep its productive energies fully employed. Any policy which precipitates bankruptcy and the unemployment of millions is a false movement, no matter how respectable its advocates."

* * *

The need for action today along the lines I have outlined is tremendously urgent. It is impossible to exaggerate the importance of taking action at once in order to put the millions of idle workmen in this country back to work.

* * *

Is it not up to the bankers, however, quite as much as the Federal Reserve Board, to exert themselves to get business and employment on its feet?

LARGE LOSSES BY A FEW ISSUES

Leaders Fluctuate but Little; Several Equipments Slump; Rails Are Firm

By W. H. ROSS,
Financial Editor.

Stocks were rather heavy in New York at noon, losses being the rule. They were large in the instance of several equipments. Railway Steel Spring was down 10½ and Pressed Steel Car 5¾ at their lowest. National Lead receded 5⅞. They all recovered to some extent during the second hour. Among other weak issues were California Packing, Pullman, Baldwin, American Locomotive, Industrial Alcohol, Pierce Arrow and Haskell & Barker. They were off from one to nearly five.

The stock market was active in the first hour, when transactions approximated 140,000 shares, and quiet in the second. Call loans renewed at 4½ per cent. Foreign exchange was steady, demand sterling opened with a quarter cent gain at $3.57¼.

MIXED MOVEMENT.

The market had an irregular opening and remained mixed in movement during the first hour. Early features were United Drug and Pressed Steel Car. United Drug opened with a five-point gain and then dropped to within a point of yesterday's low record price. It rallied several points on later transactions. Pressed Steel Car receded nearly eight points on the first sale and then sagged two further to its lowest in nearly three years. The weakness of this issue was due to deferred action on its common dividend of 2 per cent. Directors took this course because of business conditions and uncertainty as to the future. The assignment of direction of his personal affairs by President Liggett accounted for the continued slump of United Drug.

STEEL MILLS MORE ACTIVE.

Rails were steady, motors had an uncertain trend, oils were quiet but firm, tobaccos ruled a little higher, tires got little attention but had an upward tendency and sugars were neglected. Equipments had early support, and steels were heavy. According to the Iron Age, U. S. Steel mills are operating close to 40 per cent. of capacity, an improvement over the previous July average.

United Fruit was one of the weakest stocks on the list, receding nearly four points before mid-morning. Around 11 o'clock there was price improvement. The lower call rate was a sustaining influence. It fell yesterday to the lowest quotation since late in 1919. Offerings of call funds greatly exceed present demand. The "outside" rate is said to be 3 1-2 per cent. There is general belief that the money situation will be easy in the autumn.

War Finance Loans.

The War Finance Corporation has on hand a cash credit with the United States treasury of $493,827,771, and its loans amount to $99,03,839. Its loans under its war and post-war powers aggregate $359,586,049.

Corporation Reports.

For the first half of this year the Barnet Leather Co. reports net of $236,559 and surplus of $140,759.

June gross of the Philadelphia Oil Co. decreased $56,013 and its net after taxes decreased $67,270.

June increases reported by the New York Dock Co. were $14,215 in gross, $17,909 in net revenue and $16,051 in net income. Its gain in net income for six months was $105,981.

Brooklyn Edison Co., Inc., reports for the June year a balance after interest on funded debt of $2,311,605.

The Philadelphia Co. and the Natural Gas Co., its subsidiary, report for June a decrease of $450,932 in gross and $248,167 in net after taxes.

The Third Avenue Railway System shows for June a deficit after charges of $13,500. June gross was $1,224,307, an increase of $129,528, compared with the same month in 1920, while gross for twelve months was $13,498,049, an increase of $1,745,979.

For the June quarter the United States Steel Corporation reports surplus after taxes and charges of $8,067,082, equal after preferred dividends to 35 cents a share on $508,302,500 common, against a surplus of $15,475,095 or $1.80 a share in preceding quarter and $26,435,723 or $3.56 per common share in the June quarter of 1920.

For the three months ended with June the Coca Cola Co. reports net income of $1,170,915.

Phillips Petroleum Co. net before depreciation, depletion and taxes for the June quarter was $850,205.

PUBLIC SHOWS CONFIDENCE IN STOCKS

Evans Shows That Buying Remains Good Despite Adverse Reports

By C. B. EVANS.

Chicago, July 27.—Traders and others are getting a little closer real meanings all the time and the result is a more confident feeling and yet a conviction that it will take as big a thing as the United States quite a while to turn around.

All have become so hardened that the passing of a dividend or publication of a poor corporation statement makes little impression. The thing that has happened was to happen and gave notice of its coming long before it arrived so that it was a commonplace when it did arrive.

NO DECLINE IN STOCK.

The United States Steel Corporation announces its poorest quarter since 1915, and the price of the stock goes up. International Harvester reduces its cash dividend from 7 to 5 per cent. and after a period of contemplation its old friends buy the stocks. It is well bought in this city today.

When some weeks ago that reduction was announced members of the board of directors stated that Harvester's business would be poor for two years.

Now some of them have cut the period in half, for agricultural affairs look better than heretofore.

It is expected that the current quarter of United States Steel will be poorer than one that has just been reported on, but that causes no decline in the stock. It is felt that companies that were good before the war are good now even though they have had dropsy meanwhile. Mainly it is the mushroom companies that grew up during the night of the war that we should guard with distrust.

RESOURCES LAID AWAY.

In this city corporations that have been known for years as treating investors well but some of which are now doing a poor business are found to have large resources laid away in their vaults and little by little investors are picking up their stocks.

Pullman is an illustration. The statement made some time ago that Sears, Roebuck & Co. reduced its liabilities $20,000,000 the first half of 1921 is confirmed by further reports from the inside. Then we hear that the railroad companies of the Northwest are reopening their repair shops, which indicates a look forward and also gives employment to a large number of men.

The railroads are coming to be the prime favorites in the bond trade. Recent advances in prices are remarkable in view of the large quantities of bond issues that have latterly come on the market.

PUBLIC IS CONFIDENT.

In no way is the present courage of the public, or the fortitude, if you prefer, better illustrated than in the reception of current news and statistics regarding business affairs. In 19 cases out of 20 such news indicates bad conditions and points to a still lower level. But that sort of thing is a part of the routine, and moreover the public understands it better than such things were ever before understood in our history.

We have had far more failures this year than ever before, and some of them are of great proportions, but we get the announcement of a $13,000,000 collapse, and one scarcely hears it mentioned in the groups of people commenting on affairs at the brokers' offices.

People who are familiar with the events of the second half of the last century will recall the terror and depression caused by the failure of the Spragues, Claflin and a number of banks in this country, the Guerney affair and the Barings across the water.

SOME LARGE FAILURES.

We have had no failures of such importance in the present period, but we have had some large ones and also we have had enough capital swept away to set up a great many houses such as these that we have just named, and we have had hundreds of newly created nabobs humbled in the dust by their own follies. Yet we have stood it all and the growing conviction is that we could meet as much more disaster and yet be a prosperous country. There is no probability that we shall encounter any such trouble.

The men now most confidently buying stocks are quite willing to admit that we may have 5 years of dull business. They believe, however, that if we do, money will be so cheap that securities bought on present levels of income and some on no income at all will advance. The evidence of an approaching period of low rates increases a little all the time.

The main reason for not expecting them is the needs of Europe, but many good authorities declare that we will not lend much more to Europe, the principal operations hereafter to be simply commercial credits.

Cotton Market Opening

New York, July 28.—Influenced by poor cables and selling by southern wire houses, which was evidently induced by good weather over the belt, the cotton market opened easy today, at a decline of 8 to 13 points. Wall Street and professionals furnished the only support, and, after the start, October declined to 11.95, or 17 points under the previous close. Opening prices were: October, 11.90; December, 12.D13; January, 12.45; March, 12.78; May, 12.82; June, 12.92.

UNITED FRUIT DECLINES IN BOSTON

Indefinite Trend on the Local Exchange; Curb's Good Tone Not Maintained

The Boston market had an indefinite trend at its quiet start, but the majority of active issues advanced at the opening. There was a downward tendency later in the morning. But trading was of small volume and there was nothing decisive about the tone. United Fruit declined three points here and was even weaker in New York. United Drug preferred sold unchanged and the common issue was not in evidence. Greenfield Tap sold at a new 1921 low. Point or more gains were made by Boston & Maine and Atlantic Gulf. Island Creek receded 1 1-8 and Edison 2.

Fractionally lower stocks were Boston Elevated, Calumet & Arizona, Copper Range, Swift & Co., Swift International and Gray & Davis. Among those to advance a little were American Woolen preferred, United Shoe, National Leather, New Cornelia and Waltham Watch.

CURB LIST STAGNANT.

The Curb market was stagnant during the morning. At the outset there was a fairly good tone. It was not maintained. Leaders were Boston & Montana and Eureka. At the end of an hour Boston & Montana was up 1 cent at 72 cents; Crystal 2 cents at 34 cents and Mutual 1 cent at 27 cents. Among declines were Eureka 2 cents at 39 cents, Alpha 1 cent at 75 cents, Arizona Tip Top half a cent at 3½ cents and Jerome Verde 2 cents at 18 cents.

BOSTON FINANCIAL NOTES

It is reported that the American Woolen Company did the largest business in fancy woolens on Tuesday in its history and there was good demand for its serges and worsteds.

Walter F. Earle will be president of the Harvard Trust Company of Cambridge. This bank is a consolidation of the Charles River Trust Company and the Harvard Trust Company and, having resources exceeding $16,000,000, is the third largest bank in Massachusetts.

In June the Nipissing Mining Company produced ore estimated at $162,824 in net value and it shipped bullion of estimated $208,526 net value.

This country's surplus stock of zinc totals almost 92,000 tons.

The tentative valuation of the St. Johnsbury & Lake Champlain Railroad, Vermont, by the Interstate Commerce Commission is $2,924,120.

The Gloucester, Mass., tax rate for 1921 will be $28.50, an increase of $1 over last year.

No action has been taken on the first preferred dividend of the Fairbanks Company, which is due in August. The last payment was 2 per cent. quarterly on May 1.

The York Corporation of Saco, Me., will close its mills on Labor Day week in order to give its 2000 employes a vacation and not because of lack of orders.

Organization articles as Massachusetts corporations have been filed by the Security Mortgage Association, Brockton, capital $300,000; Logan Company, Brockton, 1000 shares, no par value; Amesbury Specialty Company, $100,000; W. K. Chandler, Inc., Boston, 1000 shares, no par value.

California's Oil Output.

According to Standard Oil figures, California is producing petroleum at a record rate, its output for the first half of 1920 being 60,663,435 barrels. This is at an annual rate of 121,326,870 barrels.

Railroad Items.

For June Norfolk & Western reports an increase of $769,196 in gross, while net operating income amounted to $1,247,706 as compared with a deficit of $2,040,741 for the corresponding time last year. In six months it gained $884,798 in gross and $3,932,346 in net operating income.

Delaware, Lackawanna & Western's gross increased $968,461 in June, while it gained $871,621 in net operating income. Six months' gains were $7,512,612 in gross and $4,049,953 in net operating income.

The Central Vermont has applied for a government loan of $75,000 for five years to retire $40,000 outstanding equipment notes and reimburse its treasury for equipment expenditures. The railroad offers $100,000 of its refunding gold mortgage bonds for security.

The total number of railway employes in the first quarter of 1921 was 1,691,471. This was less by 340,456 than the average number in 1920.

During the first twenty-three days of July the Chicago Northwestern reports 96,252 cars handled as compared with 111,440 for the corresponding 1920 period, a decrease of 15,188 cars.

Opposes Boat Tax

Washington, July 28.—George F. Lawley of Boston, representing the National Association of Engine & Boat Manufacturers, has asked for the repeal of the 10 per cent. tax on yachts and motor boats. He said the tax was killing his business as a boat builder, and that he would build no boats this year because of it.

Car Divided Deferred

Pittsburgh, July 28.—Pressed Steel Car directors deferred action on the common quarterly dividend of 2 per cent., because of business conditions and uncertainty as to the future. The regular quarterly preferred dividend of 1¾ per cent. was declared.

London Market

London, July 28.—The stock market was quiet today. Rio Tinto 30; consols 48½; 3½s, war loan 87¾; 5s, 88½; 4½s, 81½; 4s, 96½; French 5s, 44½; Russian 5s, 12; 4½s, 9; 4s, 9.

New York Curb Market

New York, July 28.—The Curb market opened steady: Cities Service bankers shares 13⅛; Sims 6⅝; Maracaibo 22; Carib 4⅛.

LIBERTY BONDS URGED FOR INVESTMENT

Spillane Tells of Railroad Magnate's Advice and How He Backs It Up

By RICHARD SPILLANE.

Philadelphia, July 28.—The foremost railroad executive in America had a visitor—a woman.

"I'm worried," said the lady, "and I have come to you for advice. Some mortgages I hold are about to be paid off and I do not know how to reinvest the money. Naturally, I want as large an interest return as possible.

"You know, I have about enough income to maintain myself and the children under normal conditions and not much beyond that. Everything has advanced so much in cost in the last few years that I need more now than formerly. Besides, the children are growing up and the items of clothing and education are increasing for them. You have so much knowledge of what is a fine investment. You know so many securities that bring large returns that I want your advice. What shall I do?"

ADVISES LIBERTIES.

"Buy Liberty bonds," replied the great railroad chief.

"But—" exclaimed the lady.

"There is no but about it," the railroad executive said. "You have come to me for advice. You would pay a poor compliment to me if, after asking my advise, and getting it, you did not follow it. Your husband was one of my dearest friends. I am telling you what you should do and, in justice to your children, you must do.

"I know you expected me to suggest investment in some of our securities. They are good, very good. But I tell you to buy Liberty bonds. Don't argue with me about 4¼ per cent. interest. Don't tell me they sell below par. The more they go below par the greater the advantage to investors such as yourself. They are the safest investment in the world. Some of them yield at present prices in excess of 5½ per cent. and when you consider that they are tax exempt the return is considerably more than 5½ per cent. bonds of railroads or industrials."

BUY LONG-TERMERS.

"But 5½ per cent. seems so little compared with 7 per cent. and even more from other bonds I hear about, which I am told are as safe as anything on earth," the lady protested.

"Leave those bonds to other persons," the railroad executive said. "Do as I tell you. Put your money in Liberty bonds. Buy those of long term, preferably. Don't bother after you buy them about the price at which they may be quoted in the market. You will get the same amount in semi-annual interest regardless of the market quotation.

"Now run along and leave me to my work. Nobody in America can give better advice to you than you have received.

"And now I will add something more, just to make you feel a little better and to appeal to the speculative instinct which I believe every daughter of Eve has to some degree. I believe if you and I live ten years we will see every Liberty bond that you buy now sell well above par.

ALL AMERICA SECURITY.

"No matter what happens in the future, whether we have unexampled good times or waves of good times and stringency, the virtues of Liberty bonds remain the same. When you own Liberty bonds all the 106,000,000 persons in America are pledged to the payment of these bonds, principal and interest. Everything in America stands as securely back of these obligations.

"Some years hence we will marvel at the bargains presented to us today in Liberty bonds. But for the fact that the times are unprecedented those bonds would sell way above par. My personal opinion is that they never are likely to be much below present quotations. In fact I think they are definitely but slowly climbing toward par. The more the world progresses toward rehabilitation the higher they will climb.

"Don't ever worry about them. Buy them. Have them registered. Get your interest regularly. Uncle Sam never fails. Forget or try to forget about them so far as market quotations are concerned and by the time the children are getting married they'll be above par. Then you may think about selling them but not till then."

Farm Property Valuation.

The valuation set upon all farm property in the United States by the last census returns is $77,926,000,000, compared with $40,991,000,000 in 1910, an increase in ten years of $36,935,000,000, or 90.1 per cent.

NO MORE 'TRICK' PICTURES IN TITLE TEST

No. 23, Now Eliminated, the Only One Which Had Concealed Drawing

Here is information which many participants in the Boston American's $6,000 Songs of the World Test will be glad to get.

There are no "trick" pictures in this Test in the sense that Picture No. 23 was a trick picture.

There are no Test Pictures, that is to say, which you have to turn around or turn "upside down" in order to AFTER DICTIONARY HOUNDS. ing Her Cow"—no longer a part of the Test, thrown out and to be replaced by Picture No. 61—was the only "upside downer."

AAFTER DICTIONARY HOUNDS.

This information is passed along at the request of the artist, who came in on the telephone today to say:

"The weather is so frightfully hot that I have been thinking how your spilling the beans with respect to "The Pretty Maid Milking Her Cow" must have upset some of our friends. I can imagine them saying: 'Well, I wonder how many more of them have concealed pictures in them.' I think you ought to tell them, for me, that No. 23 was the ONLY one.

"As a matter of fact, it never was my intention to have more than that one. I tried that one for the purpose of catching the 'dictionary hounds,' if possible. I mean the bunch who nearly caught me for all sixty in the Movie Play Title Test. I am still after those fellows, and hope to get them. They want to 'get' me, so it's mutual."

Which shows the effects of a few days at the beach. Lucky artist!

HOLD YOUR LISTS.

The only other thing the Test Editor wants to mention today concerns the practice of some participants to send in their Lists of Titles up to date and ask the Test Editor to tell them how they are getting along.

Please hold your lists! The Test Editor is not permitted to pass judgment upon them. Your titles must be your own selections. The Test Editor cannot do for one, or a few participants, what he cannot do for all.

Will the lady who wrote from Broad street, giving the street number, please write again? She failed to name her town or city. And will "T. H.," of Brockton, look for a letter in the General Delivery? He failed to repeat his address.

There may be days, hereafter, when you will find no Test "story;" only the picture, the Rules and the List of Titles. When the Test Editor has anything of importance to say, there will be a "story;" otherwise, none. He will continue to reply to correspondents who enclose stamped and self-addressed envelopes. His space in the paper, hereafter, must go to the List of Titles.

And observe the List of Titles!

Songs Title Test Rules

The Boston American Songs of the World Title Test is a test of skill and judgment open to all readers of the Boston American, irrespective of age, living in any city or town in New England or Canada.

Two hundred and twenty cash awards will be given by this newspaper to its readers who submit the largest percentage of correct titles to the sixty pictures to be published one each day consecutively (Sundays excepted) in the Boston American.

All employes of the Boston American and their families are absolutely barred from participating in the awards.

The test will consist of 60 pictures, each representing the title of a well-known song to be printed one each day in the Boston American, the first picture on Wednesday, June 8, 1921.

Participation in any other contest which has been run, which is now running or which may be run by the Boston American will not debar anyone from entering this test.

Every participant or any or all members of a family will be allowed to submit one set of pictures, but each set must contain only ONE TITLE to each picture, and no participant shall be entitled to more than one award and not more than one award shall be given in any one family.

Each and every title must be neatly written or printed on the coupon furnished by the Boston American; or on a page of some book form by itself, accompanied either by the picture furnished by the Boston American, or a pen or pencil copy thereof, and must have the name, residence, etc., of the participant on each title blank.

Do not send your titles in "list" form, i. e., do not write titles under one another on a piece of paper.

In case there are not complete sets of correct titles, awards will be given to the person submitting the nearest correct solutions, giving weight to skill and judgment.

In case of a tie awards will be made on the basis of neatness, judgment and accuracy, but if the tie cannot be decided in that way the tied participants will receive similar awards.

Under no circumstances should participants send in their titles before the end of the Test, as any sent in before the last picture is printed will not be considered. KEEP your titles from day to day and at the end of the Test arrange them in numerical order and then send them in all together at one time.

Time will not be a factor in making the awards. The first titles sent in after the Test closes will stand no better than the last submitted.

All titles must be delivered to the Boston American title headquarters at No. 80 Summer street, Boston 8, Mass., either by mail or in person within the specified time limit which will be announced later.

All envelopes or packages containing titles must be legibly addressed as follows: "Song Title Editor, No. 80 Summer street, Boston 8, Mass., P. O. Box 239," and each envelope or package must bear the name and address of the sender legibly written or stamped on the upper left-hand corner.

As all pictures in the Test will contain written or printed matter, if mailed, it is absolutely necessary that the packages be fully prepaid at postal letter rates, as mail of this character goes to the postoffice as first-class matter. The Boston American reserves the right to refuse to consider any sets of titles on which charges for postal delivery are not fully prepaid.

There will be no title or answer book to buy. Lists of Song Titles will be printed in the Boston American. The list appearing will contain among others the correct titles.

Participants who desire further information should address their inquiries to the Song Title Editor, No. 80 Summer street, Boston 8, Mass. Questions will be answered as far as possible through the columns of the Boston American. If participants desire personal replies, they should enclose sufficient postage for such a reply, or they may phone Main 5180 or call in person.

The Boston American reserves the right to make any change in or addition to these conditions that it may deem necessary for fairly and properly conducting the Test, and the decision of the Boston American Song Title Editor on any question which may arise will be absolutely final, and the entry of a participant is a complete acceptance of all conditions and regulations now made or to be made.

CHICOPEE MAN NAMED FOR PHARMACY BOARD

Governor Cox nominated Charles W. King of Chicopee as a member of the State Board of Pharmacy to succeed President Percy N. Hall of Westfield, who resigned, although his term did not expire until next year. Thomas H. McDonald was nominated as a pilot for the harbor of Fall River.

The council took no action on the report of the pardon committee on the petition of Richard Dwyer for a pardon. Dwyer is now serving a sentence in the State prison for an attack on Miss Marie G. Wright of Brighton.

MAN SAVED BY HUMAN CHAIN FROM BOG

Aged Berry Picker Rescued in Pine Swamp After Search of Hours

Ipswich, July 28.—A human chain formed by members of the searching party which had hunted Leander M. Goditt for hours saved him from death in the quicksands of Pine Swamp.

Goditt, who is seventy-six years old, had been clinging desperately to the frail branch of a stunted tree when sighted by his rescuers, headed by Chief of Police Leavitt.

His strength was going fast and his body had settled up to the armpits in the muddied sands of the bog hole.

SEARCHERS SCOUR WOODS.

Goditt left his home near Turkey Hill Tuesday on a berrying expedition. When he did not return after many hours had elapsed, relatives and neighbors became alarmed and searching parties scoured the adjacent woods.

Several of the parties abandoned the search with the coming of darkness, though others kept on during the night. The hunt was carried out systematically by relays, until finally faint cries for help were heard from Pine Swamp.

FORM HUMAN CHAIN.

The men rushed to Goditt's assistance, saw his plight, but were unable to reach him until the human chain had been formed.

As Goditt was dragged to safety after his trying battle for life he fell unconscious. The aged man was carried to his home and placed under the doctor's care. It was believed he would recover.

HEART ATTACK SENDS WOMAN TO HOSPITAL

Miss Catherine Lyons, fifty-nine years old, was taken from her home at No. 15 Bickerstaff street, Back Bay, to the City Hospital after suffering an attack of heart trouble. Her condition was not reported as serious.

Non-Support of the Clergy Means Danger to Country

Infrequent Church-goers Should Be Asked to Help

Last week, the newspapers announced that a small church requested the resignation of its pastor because it was not able to pay him his salary.

This did not mean that all the people in that community were not able to pay as in the days of old the pastor's salary. It meant, in all probability, as it means elsewhere, that the regular church-goers were so few compared with the years gone by that those who attended regularly were not sufficient to pay the salary.

Now this is a great pity and it indicates danger to this country. We cannot let our clergymen disappear because we will not support them.

We have no doubt that a great majority of the American people who do not attend church regularly and therefore do not contribute to the support of the church regularly would do so if they were reached in an effective way. Nearly all of us go to church sometime during the year. All of us want the church to be there and want the clergyman to be there. Most of those who do not go to church regularly would be quite willing to do their share toward the support of the church and of the pastor.

It is true that in recent years a spirit of indifference and even of hostility to the church had grown up among those elements which resented the neutrality of the church concerning the great social struggles which have been waged with the fluctuating tides. These elements did not see much emulation of the life of Christ in our neutral clergymen who took the soft road. But this attitude on the part of our clergymen has greatly changed since the war, and the exploiters of humanity have found, to their alarm, that the organized clergymen of all sects and creeds are prepared to challenge social injustice as well as conventional vice.

People are beginning to appreciate what good the churches of America have wrought in bringing about prohibition, with the incalculable benefits which are following in its train. The interchurch world movement, with its report on the steel strike, the social program of the Catholic bishops, and of the Young Women's Christian Association, of the Quakers and of nearly all of the Protestant denominations, show clearly that the church has taken on a new sense of its responsibility.

The request for the resignation of the pastor we have mentioned only calls to mind what we have frequently mentioned, namely, the wretched compensation which our clergymen receive. It is really shameful and we believe as unnecessary as it is shameful. Those who do not attend church regularly we are quite sure would be willing to contribute regularly to some church. If only a thorough canvass were made of the whole community, we believe that the injustice under which our clergymen are now suffering would easily be removed and our clergymen supported as they ought to be.

'Safety First' on Week-Ends

Canoe Drownings Could Be Guarded Against by the Use of Sponsons

The great increase in the accidents and deaths among the pleasure-seeking public during our week-ends suggests that it may again become necessary to revive the old campaign for "Safety First."

Every so often we have to attack the psychology of carelessness, which possesses our mobbed mind.

The accidents by drowning from ticklish canoes suggests the possibility of rendering these canoes safer by compulsory regulations. For instance, we understand that the governing board of Wellesley College forbids the use by Wellesley girls of any canoe which is not stabilized by sponsons, which are a hollow metal device attached to the gunwale of the boat in such a way as to make it seem part of the boat.

It makes the canoe almost as safe as a rowboat and really does not interfere much with the handling, if at all. It adds a little to the weight, but the consciousness of its safety would more than offset any of its disadvantages, most of which would be imaginary, anyway.

Our Park Commission and the other authorities, having the right, could very well require all canoes on the river and great ponds to be made safer.

Sales Tax a Benefit to All

In thinking of taxes, remember that all taxes are finally paid by consumers, and that every one of us is a consumer—every last one of us, hand-workers, brain-workers, income-getters, men, women, children, babies—all of us.

In our capacity as producers and sellers and owners of property we have to pay cash to the Federal tax-collectors, but we get that cash from ourselves and others in our and their capacity as consumers, buyers and renters.

So, then, we all pay taxes and the cost of collecting taxes.

Now, the cost of collecting taxes into the Federal Treasury under our present system—if such a hotchpotch can be called a system—is about 23 per cent. of the taxation itself—and of this excessive cost the greater part sticks in the hands of middlemen, who add a private profit every time they pass the tax along.

The cost of collecting a universal sales tax would be about 3 per cent.

The Federal taxes this year will come to about $5,000,000,000. You folks will pay that, and you will pay $1,150,000,000 in addition, charged as profit on passing the tax along to you by the various middlemen.

You would not pay more than $150,000,000 in that way if we used the universal sales tax.

To put it in a nutshell, the sales tax would save you people one thousand million dollars, with the public treasury getting the same revenue it does now.

Then remember that you pay that extra billion when you pay for your food, clothes, rent and other necessaries and comforts, and you will perceive how mistaken is the belief that the sales tax would shift the burden of taxation from the richer to the poorer classes.

It would do no such thing. It would make things cheaper for the workers and help them to prosper.

THE money we so freely handed out to foreign nations during the war, taking, by the way, no other security than notes of hand, was supposed to have gone into war making. Our money is available for use as in the picture; and there is reason to believe that some of it is being thus used against us.

Flood of Fire

At the recent meeting of the American Society for the Advancement of Science, Dr. Robert F. Griggs described a fiery flood which occurred in Alaska in the "Valley of Ten Thousand Smokes." Here he found traces of the flood of fire which, issuing from a fissure in the earth, swept a roaring torrent of molten sand through the fertile valley, devastating all in its path for a distance of more than fifteen miles.

From thousands of fissures fire steam, heated gas and smoke issued. One could do one's cooking in any of the smaller holes. And that was the only salvation of the expedition, for all fuel had been destroyed by the flood of fire. It is only a few steps from the steaming fissures to a cave in the side of a glacier in order to have the most perfect refrigeration in the world.

The explorers' tents were steam-heated, as it were, and the bath-conditions were of the best, for a stream from the glacier fed a crystal pure lake. In the middle of this lake a steam jet bubbled, and it was possible to get any desired temperature.

CHARACTER AND FACES

Some persons have a peculiarity about face or feature which is provocative of laughter, and while they may profess to be not sensitive about it, deep down in their hearts it hurts.

The fact that your features are nearly perfect makes joking remarks from you the more cutting.

If you are good looking you are fortunate, but you know you had nothing whatever to do in making your own good looks.

Often when you look in a mirror you feel thankful that your face is not so unattractive as some you see.

These persons may wish they were as comely and pleasing as you.

But regular outlines are little else save attractiveness.

If your pleasant features show nothing of grace of mind eventually your face will look shallow and dull.

Homely faces which show intelligence, honesty, knowledge and morality become better and better looking with the years, and it were well for you to keep this in mind when you are tempted to criticise any one on account of physical defects or plain homeliness.

Results to Date of Prohibition

Great Improvement

Editor Boston American:

Hardly a day passes that I do not meet men coming from work, who had not worked for years under the open saloon. Hardly a day but I notice the great improvement in the clothes worn by the children of the men who supported the open saloon.

Hardly a week that some official does not give out statistics, showing depopulated jails and alms houses, meaning less crime and poverty.

Although we are in the midst of a great business depression and unemployment is at a high ebb, the working people seem to be riding the storm with colors flying. The American housewives do not have to go fifty-fifty with John Barleycorn today.

Canada, England, Sweden, Denmark and other countries are putting the lid on tighter; that they may have a better chance to compete against sober, clear-brained, American workmen in the markets of the world

GIRLS WHO ARE MADE SLAVES IN HOME

By Nellie Ely

THE girl who stays at home is the girl worth while. She is always a sensible, hard-working, reasonable person.

She wears low heels, plain gowns, doesn't cover up her ears, and wears her own natural complexion.

Her hair looks as if it's combed, and her nose is not whitewashed.

She is just the opposite of a freak. She is modest, devoted, affectionate and self-effacing.

She is father and mother to the whole household. She is sister, cook, seamstress, laundress. And in most families she is the slave.

Her Pleasure Not Considered

The ailing and worn-out mother depends entirely upon the girl who stays at home. The babies of the family look to her for every care. The father, brothers and sisters expect her to keep them neat and tidy; to perform for them the thousand and one tasks which they dislike to do for themselves. Without her life would be a worry and a bore.

Should ever any girl waste her life by being a stay-at-home girl? Does anything in life ever recompense her for her self-denials? Has she ever any reward for her devotion to her family?

She may have. They say there is a reward for virtue and goodness, that blessings come to those who honor their father and mother. Perhaps! I have yet to see the first case where that reward came in this life.

Here is the case of one stay-at-home girl, and her case seems to be duplicated in every large family in the world:

Story of One Girl Slave

"Dear Miss Bly—I have read your articles for a very long time, and have admired you very much.

"Now, Miss Bly, I am going to ask you for a little advice, not help, as I know there are a great many people worse off than I.

"I am a very despondent girl of twenty-six years, one of a large family; my mother always ill, dependent entirely upon me. I have been doing the housework ever since I can remember, while my brothers and sisters went out to business.

"Oh! how often I cried to work outside, but mother would plead with me to have patience until she got well.

"Well, Miss Bly, she never got well, but died after a long siege of illness, and after she had spent years as an invalid. I did everything in the house. I nursed my mother; I did the washing; I did the cooking and cleaning; I did the sewing, and all this work has really left me a wreck.

"I was considered very good looking when eighteen and twenty years old, and I was very lively. But now I am settled, and, with a great deal of family trouble, look much more than my age.

Heart Is Broken

"Dear Miss Bly, my heart is broken. There seems no place in the world for me; no one wants me. I am on the verge of killing myself. I have no friends. I was always so tired after my day's work at home that I had to go to bed in order to be up in time in the morning to cook breakfast and get everybody off to work. While my sisters, who worked in offices, would come home to their dinner, doll up and go out, enjoy themselves and make friends, which I could not do.

"Staying at home has made me so backward and shy. I know it will be hard for me to get work outside. I cut out different ads from the morning papers, but when I get near the places I lose courage and choke up with tears, and by the time I approach a man or a woman boss I am so nervous that I cannot talk.

"Is life worth it, Miss Bly?" Or is it the quickest way out the best?

Asks Advice

"Miss Bly, please pray for me and advise me. I am so blue. Will watch the papers for just a few words from you. Most sincerely,

"A FRIEND."

Poor household slave. Yours was a thankless job and one that is always unrewarded. It is a crime for parents to oblige one child to bear the burden of their family. But even advanced ideas and progress in this world have not changed this old domestic problem. The family slave is generally too young to resent the selfishness which puts shackles on her for life. And when she grows up it is too late. But my friend must not despair. The majority of men are tired of the high-heeled, powdered nose, dancing trollop. They are looking for girls worth while, who can cook and be what they ought to be—housewives and helpmates. And if this girl just mingles with the world a little and lets that world know her good qualities, she will soon find someone to love her and appreciate her, and make up to her all that she has lost in life.

SAVING OF AMERICA PERSONAL AFFAIR

By Dr. Charles Fleischer

IT is up to YOU to save America—up to you as an individual.

It is a personal, individual business—this business of saving and being saved. And being "saved," in this sense, is a distinctly this-worldly affair—not to be shifted or postponed.

A certain Rabbi Hillel, a Palestinean of two thousand years ago, once asked this triple-header question: If I am not for myself, who will be? But, if I am only for myself what am I? And, if not now, when?

A more modern "rabbi" or teacher, the genial Elbert Hubbard of East Aurora and Roycroft fame, taught a similar truth in more colloquial fashion: If you want to reform the world, begin with yourself; then there will be one rogue less!

Start With Self

That does not mean, either for the world or for America, that your interest should start with yourself, centre in yourself, and end in yourself.

But sane and practical democracy does mean: commencing with yourself, and thereafter concentrating on society and consecrating your growing self to the general good.

Decent democracy demands your living up to the slogan: Each for all, and all for each.

Our kind of democracy is really a socialized individualism, whereby personal well-being and universal welfare are mutually secured.

In other words, it "pays" each of us and all of us to make and to give the utmost of ourselves.

Many things may seem more important than this. But—things are not what they seem! Perhaps you think that your job or your wages or your hours of work are more important. But even the adjustment of all these to your satisfaction will not make you happy nor "save" our country.

Only Right Spirit

Only the right spirit, the proper mutual attitude, can save America.

As a nation, we shall not get much farther on the fiendish old basis of each-for-himself-and-the-devil-take-the-hindmost. Nor can you hope to substitute, short of a million years, the divine ideal of militant Mutual Love.

You can, however, hope to develop, in this hard-headed nation, the sort of practical idealism which identifies the good of each with the good of all, and which enables each of us to serve best by being most himself.

In this way, America becomes a reconciliation of seeming opposites.

The laborer or employe, for instance, best helps himself by being most efficient. And the capitalist or employer then most advances his own interests when he is kind and just and generous to those who work—not for him, but with him and for all of us.

If America is ever to become an industrial democracy—and she will!—it will only be as the result of the embodiment of this spirit of intelligent self-interest and wise mutuality in our industrial relationships.

Organized Bigotry

Enlightened self-interest pays dividends, and wise mutuality is limitless social capital. Are you thus enlightened and wise?

So, too, if you sincerely want to save America for religious liberty, you cannot, as an individual, be a bigot in act, word, thought, or feeling.

Organized bigotry, of course, is bad; but it is made possible only by the existence of individual bigots. If you get the poison out of your own system, there will be just so much less available for vicious general use.

One pitiable bigot may hurt the feelings of Jews and Catholics and Freemasons with his cuttlefish campaign. But there are plenty of hating Jews and Catholics and Freemasons, who disgrace their own group by their equal efficiency as haters and potential persecutors.

The only way you can help America to become a land of lovers is to flood it with love, flowing in unfailing and enriching streams out of the inexhaustible fountain of your own heart.

One cannot say it too strongly: the salvation of America, the progress of the race, depends upon the individual.

BUT PERHAPS THEY DON'T THINK

We often wonder what some of the women think of themselves when they look in their mirrors before they paint up for the day.
